

Instructions for completion of International tax classification for a non-financial entity

The International tax classification for an entity (4839) form should only be completed if the Account Holder is an Entity.

Please note: For additional instructions please see the complex 4839-I form.

What is an Entity?

An Entity is a corporation, trust, partnership, association or other organization.

Before you begin filling out the International Tax Classification for an Entity form, you will need:

- Your application or account number
- Your business or trust number in Canada (this is assigned by the Canada Revenue Agency)
- You may need your TIN (TIN means the Entity or individual's Taxpayer Identification Number)

Note: Nothing in these instructions should be taken as legal or tax advice.

General Instructions on Completing the Form

The information you provide in the International Tax Classification for an Entity form is used to determine whether your account must be reported to the Canada Revenue Agency (CRA).

If any information provided in the International Tax Classification for an Entity form changes, you must notify Sun Life Global Investments within 30 days.

Before you begin, you must determine whether the Entity is a Financial or Non-Financial Entity.

Non-Financial Entities must complete sections 1, 2, 3 (if applicable), and 6.

Financial institutions must complete sections 1, 3 (if applicable), 4, 5, and 6. Financial institutions should see the complex 4839-I form.

To complete the form follow the instructions below.

1 Declaration of Tax Residency

All entities must complete this section. Complete section 1 based on where the Entity is a Tax Resident.

Tax Residency/Tax Residence

A tax resident pays or should be paying tax in a jurisdiction. Tax Residency is determined based on several criteria, including, but not limited to:

- Country of domicile (home for legal purposes, registered or permanent address)
- Country of incorporation, organization or formation
- Country of business activity (place it conducts or carries on business)
- Country of Permanent Establishment (tax treaty PE)
- Country of effective management (principal office/place where key or central management decisions are made or control is exercised)
- Other criterion that applies under the laws of the applicable jurisdiction(s)

Note: This list is not exhaustive. Please seek independent tax advice for further clarification.

If the Entity is a tax resident in only one country or jurisdiction:

Please complete the table on your International Tax Classification for an Entity form under Declaration of Tax Residency indicating the name of the country or jurisdiction where the Entity is a tax resident.

If the Entity is a tax resident in two or more countries or jurisdictions:

You must complete an additional 4839 form or forms, one for each jurisdiction. In certain circumstances, an Entity may be able to apply the tiebreaker rules contained in a tax treaty applicable to the Entity in order to resolve questions of multiple tax residences.

If the Entity's profits and losses flow through to its owners:

Please complete the table on your International Tax Classification for an Entity form under Declaration of Tax Residency with the Entity's place of effective management or country where the Entity is primarily located as its jurisdiction of residency.

Note: A trust is generally treated as a resident of the jurisdiction where its central management and control is located (i.e. where the people who control the trust reside for tax purposes). This can be where the trustee or beneficiary resides, depending on who exercises control.

2 Certification of Non-financial foreign entity (NFFE) and Non-financial entity (NFE)

You must complete section 2 only if the Entity is Non-Financial. If the Entity is a Financial Entity, you may skip this section and go to section 4. If the Entity is an NFFE or NFE complete all of section 2. For section 2.2 you will need to select one option for the Entity's FATCA (NFFE) classification and one option for the Entity's CRS (NFE) classification. You may need to refer to the definitions of the following terms in order to complete this section of the form: Passive Income, Active NFFE, Active NFE, Passive NFFE and Passive NFE.

What is a Non-Financial Foreign Entity (NFFE)?

- The NFFE is not yet operating a business and has no prior operating history, but is investing capital into assets with the intent to operate a business other than that of a Financial Institution; provided, that the NFFE does not qualify for this exception after 24 months from the date of the initial organization of the NFFE

 - The applicable laws of the NFE's jurisdiction of residence or the NFE's formation documents require that, upon the NFE's liquidation or dissolution, all of its assets be distributed to a Governmental Entity or other non-profit organization, or escheat to the government of the NFE's jurisdiction of residence or to any political subdivision thereof

A discretionary beneficiary of a trust will only be considered a beneficiary of the trust in a calendar year if a distribution has been paid or made payable to the discretionary beneficiary in the calendar year.

In the case of a legal arrangement other than a trust:
