
SUN LIFE GLOBAL INVESTMENTS (CANADA) INC.

SEMI-ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

for the period ended June 30, 2017

Sun Life MFS Canadian Bond Fund

Sun Life MFS Canadian Bond Fund

This semi-annual management report of fund performance contains financial highlights but does not contain the complete financial statements of the investment fund. You can request a free copy of the semi-annual financial statements by calling 1-877-344-1434, by sending an email to us at info@sunlifeglobalinvestments.com or by writing to us at Sun Life Global Investments (Canada) Inc., 1 York Street, Toronto, Ontario, M5J 0B6. Our financial statements are available on our website at www.sunlifeglobalinvestments.com and on SEDAR at www.sedar.com. All of the financial information is calculated based on the pricing Net Asset Valuation for the investment fund, unless otherwise stated.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Results of Operations

During the period, the net asset value of the Sun Life MFS Canadian Bond Fund (the "Fund") increased from \$123.2 million to \$123.5 million. The increase in net asset value was due to positive performance, partially offset by net redemptions during the period.

During the period, the Fund returned 1.9% for Series A units. This result lagged the Fund's benchmark, the FTSE TMX Canada Universe Bond, which returned 2.4%. The performance returns for other series of this Fund are similar to those of Series A except for differences in expense structures. Please refer to the 'Past Performance' section of this report for performance of each series.

Credit selection in provincial bonds held back returns, specifically holdings of short-dated Alberta and Quebec bonds, as short-term yields rose significantly towards the end of the period.

The Fund's significant overweight of corporate bonds, and industrial bonds in particular, at the expense of federal government bonds added value during the period. The Fund's preference for lower quality corporate bonds, specifically those rated BBB and BB, also contributed to results as they significantly outperformed the broader market.

Recent Developments

The return of inflation showed signs of faltering in the second quarter of the period. While global economic growth remained solid, signs of inflation have failed to emerge and activity has fallen short of the elevated expectations in the immediate aftermath of the U.S. election. MFS Investment Management Canada Limited (the "sub-advisor") sees signs that global growth momentum may be fading and prospects for U.S. fiscal stimulus and tax reform continue to dim. While the sub-advisor believes global economic growth may continue in the near term, the sub-advisor is not as optimistic about a sustained period of better activity that would likely mark a material breakout in global bond yields and corporate pricing power.

In the first half of the year, the benchmark posted a solid 2.4% total return, led once again by long-term bonds which returned 6.1%. All major sectors of the market – federal bonds, provincial bonds, and corporate bonds gained, with notable spread narrowing in the grade A corporate bond market and the industrials sector in particular.

The sub-advisor's core economic views have not changed this period. The sub-advisor continues to expect moderate non-recessionary global growth with low inflation and on-going headwinds from excess debt. The sub-advisor does not expect U.S. fiscal stimulus and tax reform to meet current optimistic expectations in terms of timing and impact on growth. The sub-advisor also believes trade rhetoric is a potential headwind, particularly to Canada where U.S. exports are roughly 25% of Canadian Gross Domestic Product.

As the second quarter was coming to a close, several major central banks shifted to a more hawkish tone and appeared eager to signal that the era of ultra-loose monetary policy is coming to an end. The hawkish shift is likely a result of renewed optimism over the growth outlook and, in the absence of meaningful inflation pressures, concerns over financial stability. The Federal Reserve appears likely to continue to increase interest rates and expected to begin balance sheet normalization while the European Central Bank is expected to taper its quantitative easing toward the end of the year. Late in the quarter, the Bank of Canada surprised markets by communicating a more hawkish tone and caused the market to price in a 0.50% increase in rates this year. The sub-advisor continues to believe that sustained low growth and inflation, demographic trends, and high levels of indebtedness will likely be constraints on the ability of central banks to raise interest rates significantly in the future and keep the overall level of bond yields lower for longer.

Over time, the sub-advisor expects exposures to provide greater alpha-generating opportunities and significant diversification benefits relative to the domestic Canadian bond market. The sub-advisor has become increasingly selective as the cycle has matured given the macro challenges, but continues to believe corporate bonds offer a margin of safety given the focus on issuers with strong cross-cycle fundamentals such as Financials, Utilities, Healthcare, and Consumer Staples.

Sun Life MFS Canadian Bond Fund

Effective February 5, 2016, all Series E units were re-designated to Series A units, under the Front End Sales Charge option, of the same Fund. Please refer to the Fund's simplified prospectus for more details about the captioned change and for details about the Private Client Program.

Related Party Transactions

Sun Life Global Investments (Canada) Inc. (the "Manager") is the manager, trustee and portfolio manager of the Fund.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

As trustee, the Manager holds legal title to the Fund's investments in trust for unitholders. For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund directly or through sub-advisors. The Manager has retained MFS Investment Management Canada Limited ("MFSIM"), an affiliate, to act as a sub-advisor for the Fund.

The Manager is an indirect wholly owned subsidiary of Sun Life Financial Inc., which also has an indirect majority ownership interest in MFSIM.

Fund Administrative Expenses

The Manager pays certain of the operating expenses of each Fund (the "Administration Expenses") in return for a fixed administration fee paid to the Manager by each Fund ("Administration Fee"). The Administration Fee is based on the net asset value of each series of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as a fund administrative expense in the Fund's Statement of Comprehensive Income found in the semi-annual financial statements (unaudited).

Each Fund also pays certain operating expenses directly (the "Fund Costs"). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Fund's Independent Review Committee ("IRC"); taxes payable by the Fund; and the costs of

complying with any new regulatory or legal requirement imposed on the Fund. Each Fund allocates Fund Costs proportionately among its series of units. The Fund Costs that are specific to a series of units are allocated to that series. These amounts are paid out of the assets attributed to each series of units of the Fund, which reduces the return you may receive.

Series Description

The Fund offers the following series of units: A, D, FX, F, I and O. The date of creation for Series A units was March 31, 2009, the date of creation for Series D units was July 15, 1988, the date of creation for Series FX units was February 13, 2008, the date of creation for Series I units was November 28, 2008, the date of creation for Series F units was March 30, 2012 and the date of creation for Series O units was April 1, 2014.

Series A units are available to all investors.

Series D units are only available for purchase by existing investors who held Class D units of the Fund on March 30, 2012. Investors may switch their Series D units of one fund into Series D units of another Sun Life Global Investments Mutual Fund, but may not switch units of another series into Series D units. Once a Series D investor no longer owns any Series D units, the investor may not purchase additional Series D units. In addition, Series D units may be switched into any other series (if available), if the investor meets the applicable requirements for those series.

Series FX units are not generally available to investors. They were created to grandfather certain characteristics of a previously-existing class/series units of the Fund (Class F).

Series F units are available to investors who have a fee-based account with their dealer and whose dealer has signed an agreement with the Manager. Instead of paying sales charges, investors buying Series F units pay fees to their dealer for investment advice and other services. The Manager does not pay any commissions to dealers in respect of Series F units, so the Manager can charge a lower management fee.

Series I units are special purpose securities that are currently only available to other mutual funds and eligible institutional investors. Series I units are not sold to the general public. Each Series I investor negotiates its own management and advisory fee that is paid directly to the Manager.

Series O units are available to investors through the Private Client program and must be purchased through a Private Client account. Each Series O investor pays a management fee directly to the Manager and is eligible for management fee reductions, if any, based on the value of Series O units held in the investor's Private Client account. Series O management fees are paid, after subtracting any management fee reductions, by a redemption of Series O units in the investor's account.

Sun Life MFS Canadian Bond Fund

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance from the date of inception to June 30, 2017.

⁽¹⁾ This information is derived from the Fund's audited annual financial statements and from the semi-annual unaudited financial statements for the current period ended June 30, 2017.

⁽²⁾ Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period.

⁽³⁾ Distributions were paid in cash, reinvested in additional units of the Fund, or both.

⁽⁴⁾ Comparatives prior to 2013 are prepared in accordance with Canadian Generally Accepted Accounting Principles ("Canadian GAAP"). Figures subsequent to 2013 are prepared in accordance with International Financial Reporting Standards ("IFRS").

⁽¹⁾ This information is provided as at December 31 of the period shown, except for the most recent semi-annual period, which is at June 30, 2017.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period. Prior to 2015, the Manager of the Fund waived some of its management fees and/or absorbed some expenses that would normally be charged to the Fund.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽⁴⁾ The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

⁽⁵⁾ Percentages are annualized.

⁽⁶⁾ Comparatives prior to 2013 are prepared in accordance with Canadian GAAP. Figures subsequent to 2013 are prepared in accordance with IFRS.

Management Fees

The annual maximum management fee paid by the Fund is a percentage of the average daily net asset value of each series exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of fund operations and sales and trailing commissions paid to dealers.

The percentages and major services paid for out of the management fees are set out below:

	As a Percentage of Management Fees		
	Maximum Annual Management Fee Rate (%)	Dealer Compensation (%) ¹	General Administration, Investment Advice and Profit (%)
Series A Units	1.25	32	88
Series D Units	0.65	13	87
Series F Units	0.75	–	100
Series FX Units	0.55	–	100
Series I Units	–	–	–
Series O Units ²	0.75	–	100

¹ Includes sales and trailing commissions.

² Series O management fees are not paid by the Fund. Series O investors pay management fees directly to the manager.

PAST PERFORMANCE

The indicated rates of return are the historical annualized and annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. Mutual funds are not guaranteed. How a fund performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund's annual performance for the period shown. The chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each period.

Sun Life MFS Canadian Bond Fund

Series A Units – Annual return for the period ended December 31 and the six month period ended June 30, 2017

Series F Units – Annual return for the period ended December 31 and the six month period ended June 30, 2017

Series D Units – Annual return for the period ended December 31 and the six month period ended June 30, 2017

Series I Units – Annual return for the period ended December 31 and the six month period ended June 30, 2017

Series FX Units – Annual return for the period ended December 31 and the six month period ended June 30, 2017

Series O Units – Annual return for the period ended December 31 and the six month period ended June 30, 2017

* for the period of March 31, 2009 to December 31, 2009

** for the period of February 13, 2008 to December 31, 2008

*** for the period of March 30, 2012 to December 31, 2012

**** for the period of November 28, 2008 to December 31, 2008

***** for the period April 1, 2014 to December 31, 2014

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements about the Fund, including its strategy, results of operations, performance and condition. Forward-looking statements include statements that are predictive in nature, or that depend upon or refer to future events or conditions. They are based on current beliefs, expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and various economic factors. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, technological changes, changes in government regulations or in tax laws. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", and similar expressions are intended to identify forward-looking statements.
