MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The fundamental investment objective of Sun Life Milestone 2030 Fund (the "Fund") is to seek long-term capital appreciation and to pay, on its scheduled maturity date of June 30, 2030, an amount per unit equal to the greater of the following three values: (i) \$10 per unit (the net asset value per unit on the start date of the Fund), (ii) the highest month-end net asset value per unit during the period from the start date to the Maturity Date, or (iii) the net asset value per unit on the Maturity Date of the Fund (the "Guaranteed Value"). The Fund invests in an underlying fund that provides exposure to equity market indices in North America, Europe and the Far East through investments primarily in derivatives, as well as in fixed-income securities and cash equivalents. The Fund uses an asset allocation strategy to determine the balance among these assets. Further details about the Guaranteed Value can be found in the Fund's simplified prospectus.

The Fund's sub-advisor is Sun Life Assurance Company of Canada. The portfolio manager and sub-advisor manage the Fund by investing in sufficient zero-coupon federal or provincial government bonds in order to support the guaranteed value at the maturity date of the Fund and then allocating the remainder of the Fund's assets to global equities. The global equity exposure is obtained through an investment in units of Sun Life Milestone Global Equity Fund, a fund that is managed so that its regional exposures are within defined target ranges relative to the MSCI ACWI Index weightings. You may obtain specific information about the Sun Life Milestone Global Equity Fund in its Management Report of Fund Performance, which is available on our website at www.sunlifeglobalinvestments.com and on SEDAR at www.sedar.com.

Risk

There were no changes in the Fund's investment objective or strategy during the period which materially impacted the overall level of risk in the Fund. The risks associated with investing in the Fund remain as outlined in the Fund's Simplified Prospectus.

Results of Operations

During the period, the net asset value of the Fund increased from \$63.9 million to \$77.0 million. The increase in net asset value was due to positive net sales during the period. The Fund's per unit guarantee at maturity increased ending the period at \$14.5362.

During the period, the Fund returned 0.0% for Series A units. This result lagged the Fund's blended benchmark, the 70% FTSE TMX Canada Universe Bond, 30% MSCI ACWI Index-Local Currency, which returned 3.9%. Please refer to the 'Past Performance' section of this report for more details.

Low oil prices and slower economic growth kept yields on Canadian bonds depressed relative to U.S. bonds in the first quarter. The outlook for interest rates remained clouded with the Bank of Canada deciding not to raise rates. This decision followed the federal government's move to expand its deficit to stimulate the economy, and Sun Life Global Investments (Canada) Inc. (the "Manager") did not rule out another rate cut by the Bank of Canada if the economy continued to underperform.

Equities fell sharply in the opening days of the first quarter before bouncing back strongly. In the second quarter, Britain's decision to leave the European Union sent equity markets around the world into a tailspin. European markets felt the greatest pain, dropping almost 9% the day after the vote. U.S. equity markets also took a hit initially before rebounding a few days later. And with growing market uncertainty following in the wake of the U.K. vote, the U.S. Federal Reserve put off raising interest rates.

The raging forest fires that destroyed parts of Fort McMurray were the main story in Canada in the second quarter and had a dampening effect on the economy. But a surge in oil prices helped stabilize Canada's economy, giving the Bank of Canada some much needed breathing room.

The Canadian economy continued to perform poorly in the third quarter with the Bank of Canada holding the line on interest rates. Despite Canada's sluggish economic growth, the S&P/TSX Composite Index was one of the top performers among developed equity markets in 2016, finishing the year up 21.1% on a total return basis. International and emerging markets played catch up and were among the stronger markets.

Sun Life Milestone 2030 Fund

In the fourth quarter, yields spiked higher and equity markets rallied in many developed countries following President Donald Trump's promise to stimulate the U.S. economy by cutting taxes and increasing spending on defense and infrastructure. With Republicans in control of Congress, the Manager believes that much of the president's economic agenda may be implemented.

Prior to Trump's election the U.S. Federal Reserve raised interest rates by a quarter of a percent to 0.50% and hinted at more rate hikes to come in 2017. The combination of the U.S. Federal Reserve's hawkish stance and Trump's election led to one of the greatest spikes in bond yields in decades.

Recent Developments

If President Donald Trump is successful in implementing his pro-growth agenda, the Manager believes it could help U.S. equities. However, increased economic growth could also put upward pressure on U.S. interest rates. Canadian and U.S. bond yields may continue to move higher in 2017, which could result in negative total returns for bonds. Nonetheless, the Manager does not expect yields to move up by as much as the market in 2016.

Effective February 5, 2016, all Series E units were re-designated to Series A units, under the Front End Sales Charge option, of the same Fund. Please refer to the Fund's simplified prospectus for more details about the captioned change and for details about the Private Client Program.

Related Party Transactions

Sun Life Global Investments (Canada) Inc. (the "Manager") is the manager, trustee and portfolio manager of the Fund.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

As trustee, the Manager holds legal title to the Fund's investments in trust for unitholders. For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund directly or through sub-advisors. The Manager has retained Sun Life Assurance Company of Canada, an affiliate, to act as a sub-advisor for the Fund.

The Manager is an indirect wholly owned subsidiary of Sun Life Financial Inc., but Sun Life Assurance Company of Canada is a direct wholly owned subsidiary.

Fund Administrative Expenses

The Manager pays certain of the operating expenses of each Fund (the "Administration Expenses") in return for a fixed administration fee paid to the Manager by each Fund ("Administration Fee"). The Administration Fee is based on the net asset value of each series of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as a fund administrative expense in the Fund's Statement of Comprehensive Income found in the annual financial statements (audited).

Each Fund also pays certain operating expenses directly (the "Fund Costs"). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Fund's Independent Review Committee ("IRC"); taxes payable by the Fund; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. Each Fund allocates Fund Costs proportionately among its series of units. The Fund Costs that are specific to a series of units are allocated to that series. These amounts are paid out of the assets attributed to each series of units of the Fund, which reduces the return you may receive.

Series Description

The Fund offers Series A units only. The date of creation for Series A units was October 1, 2010. Series A units are available to all investors.

FINANCIAL HIGHLIGHTS

⁽¹⁾ This information is derived from the Fund's audited annual financial statements.

⁽²⁾ Net Assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period.

⁽³⁾ The Fund automatically reinvests distributions in additional units of the Fund. Immediately following the distribution, the number of outstanding units will be consolidated, so that the net asset value per unit after the distribution is the same as the net asset value per unit before the distribution.

⁽⁴⁾ Comparatives prior to 2013 are prepared in accordance with Canadian Generally Accepted Accounting Principles ("Canadian GAAP"). Figures subsequent to 2013 are prepared in accordance with International Financial Reporting Standards ("IFRS").

⁽¹⁾ This information is provided as at December 31 of the period shown, as applicable.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) including the Fund's allocated percentage of Fund-on-Funds' expenses for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period. Prior to 2015, the Manager of the Fund waived some of its management fees and/or absorbed some expenses that would normally be charged to the Fund.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽⁴⁾ The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

⁽⁵⁾ Percentages are annualized.

⁽⁶⁾ Comparatives prior to 2013 are prepared in accordance with Canadian GAAP. Figures subsequent to 2013 are prepared in accordance with IFRS.

Management Fees

The annual maximum management fee paid by the Fund is a percentage of the average daily net asset value of each series exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of fund operations and sales and trailing commissions paid to dealers. The management fee reduces over time based on the remaining years to the scheduled maturity date of the Fund.

The percentages and major services paid for out of the management fees are set out below:

	As a Percentage of Management Fees				
	Maximum Annual Management Fee Rate – More than 5 years to maturity (%)	Maximum Annual Management Fee Rate – 5 to more than 1 years to maturity (%)	Maximum Annual Management Fee Rate – 1 year or less to maturity (%)	Dealer Compensation (%) ¹	General Administration, Investment Advice and Profit (%)

¹ Includes sales and trailing commissions.

PAST PERFORMANCE

The indicated rates of return are the historical annualized and annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. Mutual Funds are not generally guaranteed; however the Sun Life Milestone Funds benefit from a guarantee described above. How a fund performed in the past does not necessarily indicate how it will perform in the future.
