Sun Guaranteed Investment Fund Solutions

**Information folder and individual variable annuity contract
issued by Sun Life Assurance Company of Canada**

May 2025

This document contains the Sun Guaranteed Investment Fund (GIF) Solutions information folder and contract provisions. The segregated fund information folder is published by the Sun Life Assurance Company of Canada ("Sun Life") for information purposes only and is not an insurance contract. Sun Life is the issuer of the Sun GIF Solutions individual variable annuity contract and the guarantor of the guarantee provisions.

Key facts

Sun Guaranteed Investment Fund Solutions

This summary provides a brief description of the basic things you should know before you apply for a Sun Guaranteed Investment Fund Solutions (Sun GIF Solutions) contract.

This summary is not part of your contract. A full description of all the features and how they work is in the contract, information folder, fund facts and any supplement that applies. Please review these documents and discuss any questions you have with your insurance advisor.

For a glossary of terms we use, see the glossary at the back of the contract.

What am I purchasing?

You are purchasing a Sun GIF Solutions individual variable annuity contract, also called a segregated fund contract. It is issued by Sun Life Assurance Company of Canada (Sun Life). It gives you a choice of investments and guarantees.

We may offer different guarantee series that provide different types of guarantees such as maturity guarantees, death benefit guarantees and income guarantees. You may choose the guaranteed benefits you wish to receive from the contract by allocating your deposits to the available guarantee series.

Under the contract you may purchase units in any or all of the guarantee series that are available. Purchasing units of a segregated fund means allocating your deposit to units of a fund. You do not own units or any part of the underlying assets of a fund.

Information about the Sun GIF Solutions contract and the Investment Series is contained in this information folder and contract. If you purchase one of the available guarantee series other than Investment Series, which is fully described in this information folder and contract, you will receive the supplement for that series. The supplement provides additional information about that series. Supplements have provisions that will form part of your contract.

You may designate a beneficiary for your contract.

You may ask that your contract be a registered plan. Some of the available registration types are RRSP, RRIF and TFSA. The choice you make will have tax implications. Tax rules will apply to the contract while you are alive and on your death. Speak to your insurance advisor to learn more.

The value of your contract can go up or down and is subject to guarantees.

What guarantees are available?

The contract gives you maturity and death benefit guarantees for each guarantee series, that apply when you reach a certain age or when you die, whichever happens first. For the Investment Series the benefits are:

- **Maturity guarantee:** protects the value of the premiums you paid on the contract maturity date (most often age 105). The maturity guarantee is 75% of all premiums you paid, less a reduction for withdrawals.
- **Death benefit guarantee:** protects the value of the premiums you paid on death. The death benefit guarantee is 75% of all premiums you paid, less a reduction for withdrawals.

Any withdrawals you make will reduce the guarantees. For full details see section 3, Guaranteed benefits.

Different guarantee series may be available that offer income guarantees or enhanced death benefits. These benefits are calculated separately for each series.

On the contract maturity date, annuity payments will begin. You may also ask to begin annuity payments at an earlier date. Any request you make must be in writing.

What investments are available?

You may choose from a number of segregated funds. For a list of available funds, see our website at sunlifeglobalinvestments.com/investmentoptions or talk to your insurance advisor. The funds are described in the fund facts. Read the fund facts for more information about the funds. Sun Life does not guarantee the performance of funds. Before you select a fund carefully consider your risk tolerance.

How much will this cost?

The cost depends on the guarantee series, funds, and sales charge options you choose.

Sales charge options

We have different sales charge options available. Depending on the sales charge option you choose, we may:

- deduct a sales commission from your premium, or
- pay an upfront sales commission to your distributor who pays your insurance advisor.
 - they may have to return all or part of their sales commission for withdrawals made during a specific period.

Fee-based accounts may have different sales charge options. See section 5, Fees and charges, for more information.

Private Client pricing may have different options. See section 10, Private Client pricing, for more information.

Fees and expenses

There are fees to cover the cost of providing the guarantees, the management fee for the fund and other expenses. We deduct these fees, expenses and applicable taxes from the fund. The total fees and expenses charged to the fund over the calendar year are used to determine the fund's management expense ratio (MER). The MER is a measure of the cost to run a fund.

The unit value of a fund is reduced by the fees and expenses. Fee-based accounts may have some fees that are paid directly by you, which are not included in the MER. See section 7, Fees and charges, in the contract for more information.

O class units have some fees that are paid directly by you, which are not included in the MER. Please see section 5, Fees and charges, for more information.

Other fees

Sun Life may charge additional fees for certain transactions, including early withdrawals and fund switches. We may also charge a fee if you have not maintained the minimum deposit amount in a guarantee series. See section 5, Fees and charges, for more information.

See our website at sunlifeglobalinvestments.com/investmentoptions or talk to your insurance advisor for detailed information about fees associated with the funds.

What can I do after I purchase this contract?

You may make additional deposits, change the funds you are invested in, request withdrawals, and transition to different guarantee series within your contract, subject to our administrative rules. When your contract reaches the maturity date you will have options available. If you don't select an option we will provide you with a payout annuity.

Age limitations – Investment Series

We set the latest ages that you can make premium payments or deposits into the Investment Series based on our administrative rules or the Income Tax Act depending on the registration type of your contract. See section 2.1, Deposits, in the information folder for more information.

Other information

Other guarantee series may have different restrictions and minimums. Please refer to the supplements for each of the other guarantee series for further details.

Certain restrictions and other conditions may apply. Review the Sun GIF Solutions information folder and contract, and the supplements for other guarantee series for your rights and obligations and discuss any questions with your insurance advisor.

What information will I receive about my contract?

At least once a year we will send you a summary of the value of your investments and the transactions you made.

The annual audited financial statements and semi-annual unaudited financial statements for each fund are available on Sun Life's website or on request.

Can I change my mind?

Yes, you can change your mind about purchasing the contract or adding more money to it. If you change your mind you must tell us in writing within two business days after the date you receive confirmation of your purchase. We deem that you have received the confirmation five business days after we mail it.

The amount we return to you will be the amount of premium you paid or the value of your investments, whichever is less. The amount returned will include a refund of any sales commissions or other fees you paid.

Where can I get more information or help?

For more information, please contact your insurance advisor, read the Sun GIF Solutions information folder and contract, other guarantee series supplements, or you may contact us at:

Sun Life Assurance Company of Canada
30 Adelaide Street East, Suite 1
Toronto, Ontario M5C 3G9

Respecting your privacy

Our Purpose is to help our Clients achieve lifetime financial security and live healthier lives. We collect, use and disclose your personal information to: develop and deliver the right products and services; enhance your experience and manage our business operations; perform underwriting, administration and claims adjudication; protect against fraud, errors or misrepresentations; tell you about other products and services; and meet legal and security obligations. We collect it directly from you, when you use our products and services, and from other sources. We keep your information confidential and only as long as needed. People who may access it include our employees, distribution partners such as advisors, service providers, reinsurers, or anyone else you authorize. At times, unless we're prohibited, they may be outside your jurisdiction and your information may be subject to local laws. You can always ask for your information and to correct it if needed. In most cases, you have a right to withdraw your consent, but we may not be able to provide the requested product or service. Read our Global Privacy Statement and local policy at www.sunlife.ca/privacy or call us for a copy.

Sun Guaranteed Investment Fund Solutions information folder

Section 1 General information

In this information folder, “you”, “your”, and “owner” mean the owner of the contract. For non-registered contracts there can be more than one owner. “Sun Life”, “we”, “us” and “our” mean Sun Life Assurance Company of Canada. Sun Life’s Canadian head office is located at 227 King Street South, Waterloo, Ontario N2J 4C5.

When we say “administrative rules” we mean our administrative rules in place at the time of a transaction. We may change our administrative rules, without notice to you, for various reasons including:

- to improve service,
- to reflect corporate policy, or
- for economic or legislative changes including revisions to the Income Tax Act.

Sun Life may refuse any purchase. Your receipt of this document does not constitute our acceptance. The contract takes effect as of the valuation day of the first premium payment and when Sun Life receives and accepts the initial contract opening requirements. When our requirements are met we will send you a purchase confirmation. If any addendum or amendment is required we’ll send them to you and they will form part of the contract.

By allocating your deposits into different guarantee series, you are choosing the benefits you wish to receive. For a detailed description of the funds available, see our website at sunlifeglobalinvestments.com/investmentoptions or talk to your insurance advisor.

Electronic versions of the information folder and contract, and supplements are available on our website at sunlifeglobalinvestments.com/contracts. Electronic versions of the fund facts are available on our website at sunlifeglobalinvestments.com/ff. To request printed copies of these documents contact our Client Service Team at 1-844-753-4437 or talk to your insurance advisor.

1.1 Segregated funds

We have created the segregated funds for this individual variable annuity contract. By law, we must own the fund and the assets of the fund. These assets are segregated from our other assets. Once we receive your money all deposits belong to us. You are entitled to the rights set out in the contract.

The funds are divided into units. We take your instructions and invest your deposit in the fund(s) you select. We hold these funds and assign a unit value. We use the value of the units to determine your benefits.

Under the contract you may purchase units in any or all of the guarantee series that are available. Purchasing units of a segregated fund means allocating your deposit to units of a fund. You do not own units or any part of the underlying assets of a fund. You have no voting rights.

1.2 Communications

When we ask you to “tell us in writing”, please send your correspondence to:

Sun Life Assurance Company of Canada
30 Adelaide Street East, Suite 1
Toronto, Ontario M5C 3G9

We may limit or refuse any request you make if contrary to the laws of Canada, other jurisdictions applicable to you, the contract, or our administrative rules.

When we say that we will notify you, we mean that we will send a written notice to your address that we have in our files. You must tell us in writing when you change your address.

When your contract is held in the name of your distributor or its nominee, we may direct correspondence to them based on the authorization you have given to your distributor. Your authorization must be acceptable to us.

We may make changes to your contract. This information folder is a disclosure document about your contract when we issue it. If we make changes to your contract, we will send you notice of the changes.

We will send you:

- confirmations for most financial transactions affecting your contract,
- statements that give you information such as values and transaction details at least once a year,
- on your request, the simplified prospectus, annual information form, financial highlights, and audited financial statements of the underlying fund, and
- on your request, the current fund facts information, audited annual financial statements, and unaudited semi-annual financial statements for each segregated fund.

1.3 Types of contracts available

A Sun GIF Solutions contract can be registered or non-registered for tax purposes. Not all contract registration types may be available to you depending on the source of the initial premium and applicable law.

A contract that is held in a registered trust plan is a non-registered contract with Sun Life. You are the contract's annuitant. Your distributor or intermediary sends your instructions to us.

We may limit the number of Sun GIF Solutions contracts you may hold according to our administrative rules.

1.3.1 Registered contracts

You are both the owner and the annuitant of the contract. You can't appoint a joint or successor owner. You can only use the contract as security for a loan if it is a TFSA contract.

Registered retirement savings plan (RRSP), including LIRA, LRSP, and RLSP if locked-in funds, as pension law permits

You may own and make investments in your Sun GIF Solutions RRSP contract until the RRSP maturity date. At the RRSP maturity date we will continue your contract as a

registered retirement income fund (RRIF, LIF, LRIF, RLIF, or PRIF if locked-in funds, as pension law permits) unless you tell us in writing to redeem the units. If you do not continue the contract as a RRIF your contract will end. You can't make cash withdrawals from LIRAs, LRSPs, or RLSPs unless an exception is permitted by pension law.

You cannot appoint a successor annuitant for an RRSP contract.

Spousal RRSPs

If your spouse makes premium payments to your RRSP, it is a spousal RRSP. You are the owner and the annuitant of the contract. A RRIF purchased with funds transferred from a spousal RRSP will be a spousal RRIF.

Registered retirement income fund (RRIF), including LIF, LRIF, RLIF, and PRIF if locked-in funds, as pension law permits

You may hold segregated fund investments in your Sun GIF Solutions RRIF contract until the contract maturity date. Each calendar year after the year you open your RRIF contract you must withdraw a minimum annual payment. We calculate this amount according to the requirements of the Income Tax Act. If you don't withdraw the minimum amount in any calendar year, we will withdraw the amount needed to satisfy the minimum. We will send you this amount before the end of the calendar year.

For a LIF, LRIF, or RLIF contract, you may not withdraw more than the maximum annual payment permitted by pension law. LIF, LRIF, PRIF, and RLIF can continue until the contract maturity date.

You can appoint a successor annuitant for a RRIF contract. You cannot appoint a successor annuitant for a LIF, LRIF, RLIF or PRIF contract.

Tax-free savings account (TFSA)

You may hold segregated fund investments in your Sun GIF Solutions TFSA contract until the contract maturity date. You may use a TFSA contract as security for a loan by assigning it to a lender. The rights of the lender may take precedence over the rights of any other person claiming the death benefit. An assignment of the contract may restrict or delay certain transactions.

You can appoint a successor planholder for a TFSA.

1.3.2 Non-registered contracts

You may hold segregated fund investments in your Sun GIF Solutions non-registered contract until the contract maturity date.

The owner and the annuitant do not need to be the same person. The owner may be an individual, more than one individual, or a company.

You may be able to transfer ownership of the contract. We may limit your rights to transfer ownership according to our administrative rules or applicable laws.

You may not borrow money from the contract. You may use the contract as security for a loan by assigning it to a lender. The rights of the lender may take precedence over the rights of any other person claiming the death benefit. An assignment of the contract may restrict or delay certain transactions.

Section 2 Financial transactions

Financial transactions include paying premiums, moving money within the contract, withdrawals, changing funds and changing guarantee series. Some financial transactions will affect your guarantees.

See section 3, Guaranteed benefits, for more information about how financial transactions affect the guarantees.

2.1 Deposits

A deposit is the premium amount you pay or the amount you transition from another guarantee series, minus any sales charges or government taxes.

Minimum opening requirements

To establish your contract you must satisfy our opening requirements. Your first premium amount must meet our minimums. We will tell you if there are other requirements when you make your first deposit.

Minimum premium amounts for Investment Series

\$500 initial premium to a fund

\$100 for subsequent deposits

\$50 pre-authorized chequing plan (PAC) amount to a fund

\$5,000 to the dollar cost average (DCA) fund

Minimum amounts for O class units

For more information see our website at sunlifeglobalinvestments.com/ff.

Minimum amounts for Private Client pricing

For more information see our website at sunlifeglobalinvestments.com/privateclientpricing.

Valuation day

If your premium or transition amount meets our requirements, the valuation day of your first deposit is the contract date. If the total of all of your premiums are more than \$1 million, we may require you to get our written consent before we will accept it, based on our current administrative rules.

When you can make a premium payment or deposit

You can make a premium payment or deposit at any time until December 31st of the year the annuitant reaches the age shown in the chart below.

Contract's registration type	Age of annuitant (on December 31st of that year)	
	Premium payment or deposit	Contract maturity
Non-registered, TFSA	90	105
RRSP, LIRA, LRSP, RLSP	71*	71* – by this age these registration types must be converted to a RRIF, LIF, LRIF, RLIF, or PRIF. See section 12.2, RRSP to RRIF conversions, in the contract for more information.
RRIF, LIF, LRIF, RLIF, PRIF	90 (deposits from other registered contracts only)	105

* or the latest age permitted under the Income Tax Act

How we apply your deposit

We apply your deposit to purchase units of the fund(s) with the sales charge option you select. See section 5, Fees and charges, for more information.

The valuation day is the date we receive your instructions which include the guarantee series, the fund(s) and sales charge option you choose. See section 4.2, Valuation day, for more information.

Guarantee series

When you apply for your contract, you select one or more guarantee series. There may be other guarantee series available to you with different terms, conditions and guarantees. The availability of these other series depends on the date you choose to deposit money to a new series.

Payments not honoured

If a payment is not honoured we may charge you an administrative fee to cover our expenses. If you are making payments using PAC and a payment is not honoured, we will attempt a second withdrawal. We may cancel the PAC according to the PAC authorization.

Moving money to other guarantee series

We may restrict deposits to other guarantee series. For guarantee series other than Investment Series, you can read more information about these restrictions in the supplements for the specific guarantee series.

Our right to refuse or request additional information

We may refuse to accept any deposit. We may also limit the amount you can deposit for any sales charge option.

We may, at any time, decide that a fund or guarantee series is no longer available for new deposits.

We may request medical evidence about the annuitant before accepting a deposit. If we determine the medical evidence is incomplete or not satisfactory we may refuse the deposit.

We may request proof of age, sex, survival, or marital status of any person whose information is used to determine benefits. If this information has been misstated, we may recalculate the benefits to equal those that would have been provided for the person's correct age, sex, survival, or marital status. We may recover any payments made based on incorrect information, including income payments made after the death of an annuitant or other person on whose death payments should have stopped.

2.2 Withdrawals

You may request withdrawals from the Investment Series on a scheduled or unscheduled basis, depending on the registration type of the contract. Withdrawals you make will reduce the maturity and death benefit guarantees. See section 3, Guaranteed benefits, for more information.

The minimum withdrawal amounts from the Investment Series are:

- minimum of \$500 from a fund, or
- minimum of \$100 a month for scheduled withdrawals.

For each withdrawal we redeem units from the fund(s) you choose. We redeem them at the unit value on the valuation day of the withdrawal. The value of the units redeemed will change with the market value of the underlying assets of the fund(s) and is not guaranteed.

We may apply a fee for some withdrawals. We may deduct any fees and withholding taxes if required from your withdrawal. See section 5, Fees and charges, for more information.

We set minimum amounts for withdrawals. The minimum amount is before any fees or withholding taxes are deducted. A redemption of all units in your contract will terminate the contract unless otherwise specified in the supplement for another guarantee series. You can't make cash withdrawals from LIRAs, LRSPs, or RLSPs unless an exception is permitted by pension law. Withdrawals from registered contracts, except TFSA, are taxable. Withdrawals from non-registered contracts may result in capital gains or losses. See section 8, Tax information, for more information.

We process your withdrawal on the valuation day we receive your request. If we receive your request on a non-valuation day, we process it on the next valuation day. See section 4, Valuation, for more information.

Withdrawal provisions for other guarantee series are set out in the supplements for those series.

2.2.1 Required withdrawals

RRIFs, LIFs, LRIFs, RLIFs, and PRIFs require minimum annual withdrawals. We calculate the minimum annual payment amount based on the total value of your contract on January 1st of each year. If the total amount withdrawn is less than the required minimum annual payment, we will pay you the balance before the end of the year.

The payment will be withdrawn using the payment allocation we have on file for you. If none has been provided, we will pay it according to our administrative rules.

If you have a LIF, LRIF, or RLIF there is a maximum annual payment amount that is set out by pension law. You cannot withdraw more than this amount unless an exception is permitted by pension law.

2.2.2 Scheduled withdrawal options

Scheduled withdrawals are available on a monthly, quarterly, semi-annual and annual basis, subject to our administrative rules. You may request a change to your scheduled withdrawal at any time, subject to our administrative rules.

Withdrawals will reduce your guarantees. The value of the units redeemed will fluctuate with the market value of the underlying assets and is not guaranteed.

Scheduled withdrawals are not available for RRSP, LIRA, LRSP or RLSP contracts.

Scheduled withdrawal options are:

- Level net amount: you select the frequency of the withdrawals and the amount you want to receive. In addition to this amount we will withdraw any fees and withholding taxes.
- Level gross amount: you select the frequency and amount of the withdrawal before any fees and withholding taxes are deducted.
- Minimum annual payment: for RRIF, LIF, LRIF, RLIF, and PRIF only. The minimum annual payment is calculated according to the Income Tax Act. Each withdrawal must be for the same amount. The total for the calendar year will equal the minimum annual payment.
- Maximum annual payment: for LIF, LRIF, and RLIF only. The maximum annual payment is calculated according to pension law. Each withdrawal must be for the same amount. The total for the calendar year will equal the maximum annual payment.

We will deposit your scheduled withdrawal to the bank account we have on record for you. If the date specified is on a non-valuation day, the deposit will take place on the valuation day before your scheduled withdrawal.

2.3 Fund switches and changing sales charge options

2.3.1 Fund switches

You may move money from one fund to another fund within the same guarantee series; we call this a fund switch. A fund switch between funds in the same guarantee series will not affect your guarantees. If you ask to move money between guarantee series, this is called a transition. See section 2.4, Transitions, for more information.

The minimum for fund switches is:

- \$500 minimum from a fund
- \$50 minimum to a fund

You may request fund switches on a scheduled or unscheduled basis. For each fund switch we redeem units from the fund(s) you choose to switch from, and we purchase units of the fund(s) you choose to switch to. This is done at the unit value of each fund on the valuation day of the switch. An unlimited number of fund switches are permitted and you may switch all or a portion of the units of a fund, subject to our administrative rules.

Fund switches in non-registered contracts may result in capital gains or losses. See section 8, Tax information, for more information.

The unit value of units that are purchased or redeemed fluctuates with the market value of the underlying assets of the funds and is not guaranteed.

2.3.2 Changing sales charge options

Moving between different sales charge options will be treated as a withdrawal from one fund and a deposit to another, even if the fund is not changing. It may take place on multiple valuation days and may affect your guarantees.

2.4 Transitions

A transition is moving money from one guarantee series to other guarantee series within your contract. Transitions, if available, are subject to our administrative rules. Transitions will affect your guarantees. For more information read this information folder and the supplement for each guarantee series.

A sales charge may apply to the units purchased. This will reduce the amount of the deposit.

A transition into a different guarantee series other than Investment Series may require an additional application if you do not hold any units of that guarantee series at the time of the transition. Talk to your insurance advisor for more information.

If you change the fund when you transition in non-registered contracts, it may result in capital gains or losses. See section 8, Tax information, for more information.

2.4.1 Transitions - Investment Series

A transition into the Investment Series is a purchase of units. The maturity and death benefit guarantees will be increased by 75% of the deposit amount.

A transition out of the Investment Series is a redemption and will proportionately reduce the maturity and death benefit guarantees.

See section 3, Guaranteed benefits, for more information.

2.5 Dollar cost average (DCA) fund

The DCA fund allows you to move your premium from the DCA fund into other funds within a guarantee series on a regularly scheduled basis.

Each premium payment you make to the DCA fund must be \$5,000 or more. When you make this payment you must tell us in writing how you want the money allocated to funds within a guarantee series. You must provide instructions within 90 calendar days of the deposit to the DCA fund and you must allocate the money to the funds within a 12 month period from the valuation day of the payment. If fund allocation instructions are not received within 90 days of the deposit date, we may move the money to the Sun Daily Interest Fund or a substantially similar fund, in accordance with our administrative rules in place at the time.

We administer all premium payments to the DCA fund according to our administrative rules.

When we receive your premium and DCA fund allocation instructions we will deposit it to the DCA fund. You must select a day of the month that you would like the monthly switch to occur. If that calendar day does not exist in a month, the monthly switch will occur on the first day of the next month. If the day of the monthly switch falls on a non-valuation day the monthly switch will occur on the next valuation day.

You may choose a maximum of 12 monthly switches from the DCA fund. Other frequencies may be available subject to our administrative rules. Beginning on the day of the first monthly switch, and for the number of monthly switches you have selected, an equal dollar amount purchased in the DCA fund will be switched to the fund(s) you have selected.

Example:

- Deposit of \$10,000 into the DCA fund with a unit value of \$10
- You choose to switch \$1,000 per month. This switch will continue for 10 months into the fund(s) you have selected

If at the end of your schedule there are units remaining in the DCA fund we will allocate them according to your instructions on your next scheduled switch.

Example:

- Deposit \$10,000 into the DCA fund
- You choose to switch \$1,000 per month to two different funds. This switch will continue for 10 months
- After the 10th month, there is \$200 left in the DCA fund due to an increase in the market value of the fund
- The \$200 will be allocated proportionately to the funds based on your schedule on the 11th month

If all of your DCA fund units have not been allocated within the 12 month period after your DCA fund deposit, we will allocate your remaining units to the fund(s) you have selected on the last scheduled switch of the 12 month period, subject to our administrative rules.

You may make withdrawals or unscheduled switches from the DCA fund. After a withdrawal or unscheduled switch the monthly switches continue if there are enough units in the DCA fund. If there aren't enough units, we will make the switch based on a proportionate allocation of the fund(s) you selected.

Example:

- Balance of \$1,000 remaining in the DCA fund with one switch left in the schedule. \$1,000 each month is switched into two different funds equally
- Withdrawal of \$500 leaves a balance of \$500 in the DCA fund
- The balance left in the DCA fund will be proportionately allocated with \$250 to each fund

You may make additional deposits to the DCA fund. The existing fund allocations remain in effect unless you tell us in writing. You may change your fund allocation at any time. The new fund allocation will override any previous fund allocations.

For each subsequent deposit to the DCA fund you must give us allocation instructions for a schedule that will be completed within the required 12 month period.

You are not permitted to switch from any fund(s) within the contract to the DCA fund or set up a PAC to the DCA fund.

We may close the DCA fund to new deposits, limit the number of funds you may switch into or restrict the funds you may switch into.

Section 3 Guaranteed benefits

3.1 Maturity guarantee

3.1.1 Contract maturity guarantee

On the contract maturity date there is a maturity guarantee benefit.

We calculate the maturity guarantee separately for each guarantee series held within your contract. For guarantee series other than Investment Series see the supplements for each guarantee series for more information.

Any withdrawals you make will proportionately reduce the maturity guarantee.

The formula for proportionate reduction is:

- $\text{Proportionate reduction} = \text{MG} \times \text{W/MV}$
 - MG = maturity guarantee amount immediately before withdrawals or transitions
 - W = market value of the units redeemed or transitioned
 - MV = total market value of the units for that guarantee series on the valuation day immediately before the withdrawal or transition

For non-registered, TFSA, RRIF, LIF, LRIF, RLIF, and PRIF contracts, the contract maturity date will be December 31st of the year the annuitant turns 105.

RRSP, LIRA, LRSP, and RLSP contracts cannot be held after December 31st of the year the annuitant turns 71 (or the maximum age permitted by the Income Tax Act). On that date, unless you tell us otherwise in writing, we will amend the contract to continue as a RRIF or a LIF, LRIF, RLIF, or PRIF as pension law permits.

At the contract maturity date, annuity payments will begin unless you tell us otherwise in writing. The amount we use to calculate the payout annuity will be the total of all the guarantee series maturity benefits. There may be additional options for each guarantee series, please see the supplements for more information. See section 3.3, Payout annuity, for more information.

3.1.2 Investment Series maturity guarantee

The maturity guarantee for the Investment Series is 75% of all premiums or transitions applied to the Investment Series less a proportionate reduction for any withdrawals or transitions to other guarantee series.

On the contract maturity date, the maturity benefit is the greater of:

- the maturity guarantee, or
- the total market value of the Investment Series.

If the total market value of the Investment Series is less than the maturity guarantee on the contract maturity date, we will immediately add units to increase the value to equal the maturity guarantee. We call this a guarantee top-up.

3.2 Death benefit guarantee

3.2.1 Contract death benefit guarantee

If the last surviving annuitant dies on or before the contract maturity date, we pay the death benefit to the person entitled to receive it.

We calculate the death benefit guarantee separately for each guarantee series held within your contract.

Any withdrawals you make will proportionately reduce the death benefit guarantee.

The formula for proportionate reduction is:

- $\text{Proportionate reduction} = \text{DG} \times \text{W/MV}$
 - DG = death benefit guarantee amount immediately before withdrawals or transitions
 - W = market value of the units redeemed or transitioned
 - MV = total market value of the units for that guarantee series on the valuation day immediately before the withdrawal or transition

The amount of the death benefit will be the total of all the guarantee series death benefits. For guarantee series other than Investment Series see the supplements for each guarantee series for more information.

3.2.2 Investment Series death benefit guarantee

The death benefit guarantee for the Investment Series is 75% of all premiums or transitions applied to the Investment Series less a proportionate reduction for any withdrawals or transitions to other guarantee series.

On the death benefit date, the death benefit is the greater of:

- the death benefit guarantee, or
- the total market value of the Investment Series on the death benefit date.

If the total market value of the Investment Series is less than the death benefit guarantee on the death benefit date, we will immediately add units to increase the value to equal the death benefit guarantee. We call this a guarantee top-up.

On the death benefit date, we will redeem all units of the existing fund(s) and transfer the corresponding value to be held in a money market fund within the Investment Series until the death benefit is paid.

Example of maturity and death benefit guarantee for the Investment Series and the impact of deposits and withdrawals (when market value is greater than the sum of deposits)

Date	Transaction	Amount	Market value before transaction	Market value after transaction	Maturity guarantee after transaction	Death benefit guarantee after transaction
Apr 2, 2025	Initial deposit	\$50,000	–	\$50,000	\$37,500 (\$50,000 x 75%)	\$37,500 (\$50,000 x 75%)
Jul 8, 2025	Subsequent deposit	\$15,000	\$51,000	\$66,000	\$48,750 [\$37,500 + (\$15,000 x 75%)]	\$48,750 [\$37,500 + (\$15,000 x 75%)]
Nov 12, 2025	Withdrawal	\$10,000	\$67,000	\$57,000	\$41,473.88* (\$48,750 – \$7,276.12)	\$41,473.88* (\$48,750 – \$7,276.12)

* proportionate reduction = $\$48,750 \times \$10,000 / \$67,000 = \$7,276.12$

Example of maturity and death benefit guarantee for the Investment Series and the impact of deposits and withdrawals (when market value is less than the sum of deposits)

Date	Transaction	Amount	Market value before transaction	Market value after transaction	Maturity guarantee after transaction	Death benefit guarantee after transaction
Apr 2, 2025	Initial deposit	\$50,000	–	\$50,000	\$37,500 (\$50,000 x 75%)	\$37,500 (\$50,000 x 75%)
Jul 8, 2025	Subsequent deposit	\$15,000	\$48,000	\$63,000	\$48,750 [\$37,500 + (\$15,000 x 75%)]	\$48,750 [\$37,500 + (\$15,000 x 75%)]
Nov 12, 2025	Withdrawal	\$10,000	\$60,000	\$50,000	\$40,625* (\$48,750 – \$8,125)	\$40,625* (\$48,750 – \$8,125)

* proportionate reduction = $\$48,750 \times \$10,000 / \$60,000 = \$8,125.00$

3.3 Payout annuity

On the contract maturity date, annuity payments will begin.

The terms of the payout annuity depend on which contract registration type you hold. We describe this below.

We will use the total of the maturity guarantee values of each guarantee series, less any applicable fees, to calculate the annuity payments.

For all contract registrations except a TFSA, the annuity payments will be calculated and paid as a life annuity guaranteed for 10 years. The annuity rate we use is the greater of:

- the rate specified in the contract (section 12.3, Payout annuity), or
- the annuity rate in effect at the time you begin annuity payments.

For TFSA contracts, the annuity payments will be calculated and paid as a 10 year term certain annuity. The annuity rate we use is the greater of:

- the rate specified in the contract (section 12.3, Payout annuity), or
- the annuity rate in effect at the time you begin annuity payments.

If the annuitant dies before 120 annuity payments are made, we will pay a death benefit to the person entitled to receive it. For all contracts except TFSA, if the annuitant is alive after 120 annuity payments have been made, the annuity payments will continue until they die. We may recover any payments made after the annuitant dies.

If the amount of the annuity payments we calculate is less than the monthly minimum required according to our administrative rules, we may pay you the total contract value, less any fees, in one lump sum.

You may be able to select another type of payout annuity we offer at the time you ask to begin annuity payments, subject to our administrative rules and the contract registration type. You may ask to begin annuity payments at an earlier date. The rate we use will be the annuity rate in effect at that time. A spousal waiver or consent may be required for locked-in contracts. Talk to your insurance advisor for further details.

Section 4 Valuation

In this section we describe how units are valued.

Sun Life owns the assets of the funds and they are segregated from our other assets. We divide the assets of each fund into units which are allocated to individual contracts to determine the values under those contracts.

4.1 Market value

The contract's market value on any valuation day is the total value of the units of all funds in the contract at the close of business on that day.

A guarantee series' market value on any valuation day is the total value of all units held in that guarantee series at the close of business on that day.

4.2 Valuation day

A valuation day is every day that the Toronto Stock Exchange is open for business and a value is available for the underlying assets of the funds.

If we receive transaction instructions before the market cut-off time we will process the transaction based on the market value at the close of business on the valuation day. We determine the market cut-off time and we may change it.

4.3 Unusual circumstances

Under unusual circumstances, we may have to postpone the date of a transaction. This may happen if we believe it is not practical to dispose of investments held in a segregated fund or underlying fund or that it would be unfair to other policy holders. During such a delay, we will administer the transaction in a manner that we consider fair.

4.4 Unit value

We determine the unit value of a fund on a valuation day according to our administrative rules. We determine the unit value of a fund at the market cut-off time on each valuation day.

The unit value will be the total value of the underlying assets of the fund after deducting all liabilities, divided by the number of fund units.

We may increase the number of units of a fund, which reduces the unit value. We may also reduce the number of units which would increase the unit value. The market value of the contract and the market value of any guarantee series will not be affected by these changes.

The unit value of a fund is normally valued on every valuation day. We may postpone valuation for any period:

- during which any of the stock exchanges are closed,
- during which trading on securities exchanges has been restricted, or
- where it is not reasonable to trade the securities of a fund, or determine the total value of the assets of a fund.

Even if we postpone valuation we will always value the fund's unit value at least once a month.

Section 5 Fees and charges

We will charge you management fees, insurance fees and any other fees that may apply to your contract. You may have to pay sales charges when depositing to your contract.

Sales charge options that may be available to you are:

- Front-end load,
- F class,
- Advisor chargeback, and
- O class.

We may change the sales charge options for new premium payments at any time.

Private Client eligible units have different fees and charges. See section 10, Private Client pricing, for more information.

5.1 Sales charge options

The amount of sales charges is determined by the premium or transition amount and the sales charge option under which you purchased units.

Moving money between sales charge options is not permitted, unless we allow it under our administrative rules or due to a regulatory change. When the movement is due to a regulatory change, we will notify you but we may not require your authorization. Guarantee top-up deposits we make to your contract are not subject to sales charges. See section 3, Guaranteed benefits, for more information.

Compensation paid to the distributor, who will pay your insurance advisor, varies under each sales charge option.

5.1.1 Front-end load (FEL)

Under this sales charge option you pay FEL sales charges when you make a premium payment. We pay this sales charge to your distributor. You can negotiate the amount you pay with your distributor.

The sales charge will be a percentage of your premium. The charge will never be more than 5% and never less than 0%. We deduct the sales charge from your premium and use the net amount to allocate units to your contract.

FEL units may be eligible for a reduced management fee. See section 10, Private Client pricing, for more information.

5.1.2 F class

If you have a fee-based or wrap account with your distributor and your contract is held in nominee name, you may be able to select this sales charge option.

You pay F class sales charges directly to your distributor and not from your contract. The amount you pay can be negotiated with your distributor. You do not pay sales charges to us when you make deposits or withdrawals.

You may change from a nominee name contract to a contract held in Client name with us. The units will move from the F class sales charge option to the FEL sales charge option without a sales charge. Your guarantees will not be affected and the change will not result in a taxable disposition if the fund(s) and the guarantee series remain the same.

If we are notified that you no longer have a fee-based or wrap account, we will move the units in the F class sales charge option to the FEL sales charge option according to our administrative rules.

F class units may be eligible for a reduced management fee. See section 10, Private Client pricing, for more information.

5.1.3 Advisor chargeback

Under the advisor chargeback option, you do not pay a sales charge when you make a premium payment. You do not pay redemption fees when you make a withdrawal.

When you make a premium payment, we pay a sales commission to your distributor who will pay your insurance advisor. If you make a withdrawal within two years from the purchase date, your distributor and insurance advisor may have to return all or part of their sales commission.

Advisor chargeback units may be eligible for a reduced management fee. See section 10, Private Client pricing, for more information.

5.1.4 O class

When you purchase O class units we pay the FEL sales charge to your distributor. See section 5.1.1, Front-end load (FEL), for more information.

For O class units we collect the management fee, plus applicable taxes, monthly directly by redeeming your O class units in each guarantee series proportionately from each fund. The redemption of units to pay the management fee does not affect your guarantees. For the management fees see our website at sunlifeglobalinvestments.com/investmentoptions or talk to your insurance advisor.

When you purchase O class units you agree to pay your distributor a service fee. We collect this fee plus applicable taxes on your distributor's behalf by redeeming O class units monthly from your contract, proportionately from each fund. The redemption of units to pay the fee does not affect your guarantees. See section 7.2, Servicing commission, for more information.

O class units may be eligible for a reduced management fee. See section 10, Private Client pricing, for more information.

5.2 Early withdrawal fees

We may charge an early withdrawal fee if you redeem units of a fund within 30 business days of the date you acquire them. The amount of the charge is 2% of the value of the units redeemed and is deducted from your withdrawal.

5.3 Small policy fee

We may charge an annual fee of up to \$150 to a guarantee series. We charge this fee if the minimum amount to establish a guarantee series, as stated in section 2.1, Deposits, has not been met at the end of each calendar year following the calendar year of the initial deposit.

We may also charge this fee if you have met the minimum amount but redeemed units, reducing the market value below the minimum amount. We do not charge a fee if the withdrawals are for income payments or minimum annual payments that are required by law.

We do not charge a fee if the amount is below the minimum because the market value has decreased.

If the fee applies, we will redeem units from the guarantee series on the first valuation day of the year to pay the fee.

Withdrawals to pay the fee will not affect your guarantees and will not be subject to any sales charges.

5.4 Insurance fees, management fees, and other fund charges

5.4.1 Insurance fees

You pay an insurance fee to us for providing the maturity guarantee, the death benefit guarantee and any other guarantees provided for each guarantee series. We calculate and charge this fee to each fund.

The insurance fee is an annual percentage of the value of all units held in each fund in the guarantee series. The annual percentage is available on our website at sunlifeglobalinvestments.com/investmentoptions or talk to your insurance advisor. We calculate and charge this fee daily to each fund. We may increase this fee, without notice, up to the insurance fee limit. The insurance fee limit is the insurance fee plus the greater of:

- 0.50%, or
- 50% of the insurance fee.

We will give you 60 days advance written notice if we increase the insurance fee above the stated limit on any fund. See section 6.7, Fundamental changes, for more information.

For more information on the current insurance fees for each fund, see our website at sunlifeglobalinvestments.com/investmentoptions or talk to your insurance advisor.

5.4.2 Management fees

You pay a management fee to us for managing the fund(s) in your contract. We calculate and charge this fee daily to each fund. Each fund will have a different management fee. Management fees may also vary depending on the sales charge option and the guarantee series. It is an annual percentage based on the value of all units held in each fund in the guarantee series. For the management fees, see our website at sunlifeglobalinvestments.com/investmentoptions or talk to your insurance advisor.

The management fees of a fund include all management fees charged by us and any underlying fund. There is no duplication in the management fees and sales charges of the funds and underlying funds.

If we increase the management fee on any fund we will give you advance written notice. See section 6.7, Fundamental changes, for more information.

O class management fees are calculated differently. See section 5.1.4, O class, for more information.

5.4.3 Management expense ratio (MER)

The MER of a fund is calculated based on the insurance fees, the management fee, and the fund's operating expenses.

The MER of a fund includes the MER of any underlying funds, and any fees or sales charges associated with those underlying funds. There is no duplication in the fees and sales charges of the funds and underlying funds.

The MER of a fund may change without notice unless the increase is due to an increase in the management fee or the insurance fee is increased above the limit.

Section 6 Investment options

See our website at sunlifeglobalinvestments.com/investmentoptions for the funds available or talk to your insurance advisor.

We may change the funds available for each guarantee series, including discontinuing funds, merging funds, adding new funds, and substituting funds with a substantially similar fund.

We may also add requirements to ensure that a minimum proportion of your holdings in a guarantee series is held in fixed income investments. We may:

- transition your units from one guarantee series to units of a different guarantee series of the same fund, or
- switch your units from one fund in your guarantee series to another fund in the same guarantee series.

We will give you 60 days advance written notice before we proceed.

Some changes to the funds may be considered a fundamental change. See section 6.7, Fundamental changes, for more information.

Sun Life establishes the segregated funds and may invest in underlying mutual funds, stocks, bonds, or other investments. You do not become an owner of the underlying funds or assets.

Guarantee series

We determine which guarantee series are available to you. At any time we may decide that any of our guarantee series will no longer be available for new deposits.

The guarantee series determines the benefits under your contract. Each guarantee series has one or more funds associated with it. For Investment Series the benefits are described in this information folder. For any other guarantee series the benefits are determined at the date of the initial deposit into that guarantee series and are set out in the supplement for that guarantee series. The benefits described in that supplement will apply to all subsequent deposits until the guarantee series is terminated.

6.1 Unit values

The unit value of a fund is the net asset value per unit of the fund. The net asset value of a fund is the total value of all assets in the fund minus all liabilities, fees, and charges divided by the total number of units outstanding.

Unit values are calculated on every valuation day. See section 4.2, Valuation day, for more information.

6.2 Investment policy

Each fund has a fundamental investment objective which determines the investment policies and restrictions for the fund. See the fund facts for details of each fund.

The fundamental investment objective of an underlying fund cannot be changed unless approved by the unitholders of the underlying fund. If a change is approved, we will notify you of the change.

The investment policies may change from time to time. We will notify you of any material change.

A change to the fundamental investment objective will be considered a fundamental change. See section 6.7, Fundamental changes, for more information.

If you ask us, we will provide more detailed information about the fundamental investment objectives and investment policies of the funds and the underlying funds.

6.3 Potential risks of investing

There are a number of risks when you invest. The risk may be different depending on the fund you choose. For details of the risk on each fund please refer to the fund facts.

We describe the risks that may affect the funds below.

Asset-backed and mortgage-backed securities risk

Some funds may invest in mortgage-backed or asset-backed securities, including asset-backed commercial paper.

These types of debt obligations are issued by an entity that has been created for the specific purpose of holding a pool of assets and their associated cash flows and contractual rights. The entity is usually in the legal form of a trust, and the ability to make interest payments and repayment of principal at maturity depends on the quality and performance of the underlying loans and additional credit and liquidity support features.

If there is a sudden change in interest rates, the creditworthiness of the borrowers of the underlying loans

may be affected, and the underlying loans could be subject to default or prepayment. In these circumstances, the value of the securities may be affected. In addition, there may be a mismatch in timing between the cash flow of the underlying loans and the payment schedule of the asset-backed or mortgage-backed security which may affect payments or liquidity.

Class risk

Mutual funds, including the underlying funds, sometimes issue different classes of units of the same fund. Each class has its own fees and expenses which each fund tracks separately. If one class is unable to meet its financial obligation the other classes must make up the difference.

Corporate class risk

- **Share classes** - Certain underlying funds are structured as classes of shares of a single corporation which may contain multiple funds. Each underlying fund has its own assets and liabilities, which are used to calculate its value. The fund's assets are the property of the corporation. The fund's liabilities are the obligations of the corporation. That means if a fund cannot meet its obligations, the assets of the other funds may be used to pay those obligations.
- **Capital gains distributions** - A corporate structure usually allows investors to defer paying tax on capital gains related to inter-class switches. However, in some circumstances, especially where there are a large number of switches out of a class, the corporation may be required to sell some of its investments attributable to that class to provide the cash required by it to fund the transfers to the other fund classes. This could cause a capital gain to be realized by the class, and the class could be required to distribute it amongst its shareholders, including a fund. As a result, you may receive an allocation of capital gains. If the amounts of capital gains realized are significant, the corporation may distribute these gains to the shareholders of the classes to which the switches were made.

Credit quality risk

When a company or government issues a fixed income security, it promises to pay interest and repay a specified amount on the maturity date. Credit risk is the risk that the company or government will not live up to that promise. Credit risk is lowest among issuers that have good credit ratings from recognized credit rating agencies. The riskiest fixed income securities are those issued by companies or governments with low or no credit ratings. These securities usually offer higher interest rates to compensate for the increased risk.

Currency risk

Currency risk exists when an investment is priced in a foreign currency. If the value of the foreign currency decreases compared to the value of the Canadian dollar, the value of that investment in Canadian dollars reduces. Changes in currency exchange rate can also impact the value of investments. To some extent, the effects of the change in a currency exchange rate can be offset by hedging foreign currency exposure. Exchange controls in some countries may also affect an investment's value if it is not possible to make currency transactions as needed.

Cyber security risk

As the use of technology has become more prevalent in the course of business, Sun Life, the funds and their service providers have become potentially more susceptible to operational risks through breaches in cyber security. A breach in cyber security refers to both intentional and unintentional cyber events that may cause the loss of proprietary information or other information subject to privacy laws, data corruption, or the loss of operational capacity. This in turn could cause regulatory penalties, reputational damage, interference with the ability to calculate the net asset value of a fund, impediments to trading, inability to process transactions including the redemption of securities, violations of applicable privacy and other laws, reimbursement or other compensation costs, additional compliance costs associated with corrective measures, and/or financial loss. Cyber security breaches may involve unauthorized access to digital information systems (e.g., through "hacking" or malicious software coding), but may also result from outside attacks such as denial-of-service attacks (i.e., efforts to make network services unavailable to intended users). In addition, cyber security breaches of third party service providers or issuers that a fund invests in can also subject the funds to many of the same risks associated with direct cyber security breaches. Like with operational risk in general, Sun Life has established risk management systems designed to reduce the risks associated with cyber security. However, there is no guarantee that such efforts will succeed, especially since Sun Life does not control the cyber security systems of issuers or third-party service providers.

Derivatives risk

A derivative is usually an agreement between two parties which effectively locks in the price of a stock, bond, currency or market index until a future date. The value of the agreement is derived from the value of the underlying security, currency or index.

Funds may only invest in derivatives if:

- it is consistent with the fund's investment objectives and policies, and
- it complies with the policies and rules of Canadian securities authorities, or in the case of an investment by a segregated fund, it complies with the individual variable insurance contract guidelines.

Derivatives are used by some of the funds primarily to reduce risk. They are useful fund management tools for:

- **Hedging** – helps protect against losses from changes in stock prices, exchange rates or market indices. Certain derivatives allow a portfolio manager to lock in an interest rate, currency exchange rate or stock price for a period of time when they expect upcoming volatility to negatively impact a particular investment.
- **Market/currency exposure** – if the price of a market index is locked in for a period by a derivative, a similar effect to owning the underlying securities is achieved but without actually trading in those securities. Derivatives are useful for gaining exposure to regional areas where direct investment has additional risk. This risk may be due to markets that are not liquid or which impose foreign withholding taxes when foreign securities are sold. They are useful for gaining immediate market exposure until cash can be efficiently invested in specific stocks, and can be used to quickly redirect currency exposure.

Using derivatives comes with a number of risks. These may include:

- hedging with derivatives may not always work and it could restrict a fund's ability to increase in value
- there is no guarantee that a fund will be able to obtain a derivative contract when it needs to, and this could prevent the fund from making a profit or limiting a loss
- a securities exchange could impose limits on trading of derivatives, making it difficult to complete a contract
- the other party in the derivative contract might not be able to honour the terms of the contract
- the price of a derivative might not reflect the true value of the underlying security or index

- the price of a derivative based on a stock index could be distorted if some or all of the stocks that make up the index temporarily stop trading
- derivatives traded on foreign markets may be harder to close than those traded in Canada
- in some circumstances, investment dealers and futures brokers may hold some of an underlying fund's assets on deposit as collateral in a derivative contract. This increases risk because another party is responsible for the safekeeping of the assets

The policies and rules of Canadian securities authorities prohibit using derivatives for leveraging which may expose a fund to market risks in excess of the fund's net assets.

All underlying funds investing in derivatives must maintain cash, high quality liquid instruments (such as treasury bills) or securities in amounts sufficient to settle obligations under the derivatives. Risks associated with using derivatives to obtain exposure to a security, market or currency will generally be the same as the risk of investing directly in the underlying security, market or currency.

Emerging markets risk

Less developed markets in regions like Eastern Europe, Asia, South America, Africa and the Middle East may experience greater price changes than developed markets.

Environmental, social and governance (ESG) risk

Views may differ on what constitutes positive, negative or material ESG traits and/or criteria, socially responsible norms, as well as the ESG assessment of an issuer or industry. As a result, the securities or industries in which an underlying fund using an ESG investing approach invests, directly or indirectly, may not reflect the values or assessment of any particular investor. The information and data used to evaluate the ESG characteristics of an issuer may be incomplete, inaccurate, unavailable or subjective, causing an underlying fund's portfolio manager or sub-advisor to incorrectly assess the ESG characteristics of an issuer and/or come to varying conclusions. An underlying fund's ESG methodology may not eliminate the possibility of its exposure to issuers that exhibit negative or unattractive ESG characteristics. There is no assurance that an underlying fund using an ESG investing approach will outperform other underlying funds that do not incorporate ESG characteristics. The ESG methodology applicable to an underlying fund, including ESG criteria, may be amended from time to time, at the discretion of the underlying fund's portfolio manager or sub-advisor.

Equity risk

Equity risk is the risk that the value of a company will decrease. Equities (such as common shares) represent part ownership in a company. The value of an equity changes with the fortunes of the company. General market conditions, economic conditions in the country in which it operates, the health of the economy as a whole, and investor perceptions of the company can also affect the equity value. Equity-related securities, which provide indirect exposure to the equities of a company, can also be affected by equity risk. Examples of equity-related securities are warrants and convertible securities.

Foreign securities risk

Investments in foreign companies are influenced by economic and market conditions in the countries where the companies operate. Equities and fixed income securities issued by foreign companies and governments are often considered riskier than Canadian investments. One reason for this is that many countries have lower standards for accounting, auditing and reporting. Some countries are less politically stable than Canada and there is often less available information about individual investments. In some countries, there is a risk of nationalization, expropriation or currency controls. Trading restrictions or other laws may impede the sale or reduce the gains on an investment. It can be difficult to trade investments on foreign markets and the laws of some countries do not fully protect investor rights. These risks and others can contribute to larger and more frequent price changes among foreign investments. U.S. investments are not considered to have foreign investment risk.

Interest rate risk

Interest rates change over time. Interest rate risk is the risk that interest rate changes will reduce the value of the income securities held within a fund. Income securities include treasury bills, bonds, debentures and other debt securities which usually represent loans to companies or governments. The market values of those securities are affected by interest rates. When interest rates decrease, income securities generally increase in value; when interest rates increase, income securities generally decrease in value. Fixed income securities with longer terms to maturity are usually more sensitive to changes in interest rates than securities with shorter terms to maturity.

Investment trust risk

Investment trusts provide for investments in real estate, royalties, income and other types of investments. They are in the form of a trust and not a corporation. If there is not enough in the investment trust to satisfy a claim against the

trust, its investors, including the underlying fund, could be held liable.

Investment trusts try to protect their investors by including provisions in their agreements that the investment trust's obligations will not be binding on investors. Investors could still be exposed to damage claims against the trust such as personal injury and environmental claims. Some jurisdictions have legislation to protect investors from the possibility of this liability.

The Income Tax Act has rules that may apply to investment trusts. If an underlying fund invests in an investment trust or limited partnership these rules may apply and reduce after-tax returns.

Large redemption risk

Some underlying funds may have investors who own a large proportion of the outstanding units or shares of the underlying fund. For example, other institutions such as banks and insurance companies or other fund companies may purchase securities of the underlying funds for their own mutual funds, segregated funds, structured notes or discretionary managed accounts. Retail investors may also own a significant amount of an underlying fund.

If one of those investors redeems a large amount of their investment in the underlying fund, the underlying fund may have to sell its investments at unfavourable prices to meet the redemption request. This can result in significant price fluctuations to the net asset value of the underlying fund, and could reduce the returns of the underlying fund.

Liquidity risk

Liquidity risk is the risk that an investment cannot be easily converted into cash, which reduces its value. Liquidity is a measure of how easy it is to convert an investment into cash. An investment may be less liquid if it is not widely traded, if there are restrictions on the exchange where the trading takes place, or due to legal restrictions, the nature of the investment itself, settlement terms, or for other reasons such as a shortage of buyers interested in a particular investment, or an entire market. Investments with low liquidity can have dramatic changes in value and can result in a loss.

Real estate risk

Real estate by nature is not a liquid asset. There is no formal market for trading in real property and very few records are available to the public, which give terms and conditions of real property transactions. It may take time to sell real estate investments at a reasonable price. This could limit the fund's ability to respond quickly to changes in economic or investment conditions.

Securities lending risk

Securities lending, repurchase and reverse repurchase transactions may be used by an underlying fund to earn additional income. There are risks with these kinds of transactions.

The value of the securities loaned under a securities lending transaction or sold under a repurchase transaction might exceed the value of the cash or collateral held by the underlying fund. If the party to the transaction who is obliged to repay or resell the securities to the underlying fund defaults, the cash or collateral received as part of the transaction may be insufficient to enable the underlying fund to purchase replacement securities. The underlying fund may suffer a loss for the difference.

The value of the securities purchased under a reverse repurchase transaction may decline below the amount of cash paid by the underlying fund to the third party who sold the securities. If the third party defaults on its obligation to repurchase the securities they may need to be sold for a lower price and a loss will be suffered by the underlying fund for the difference.

Short selling risk

Certain underlying funds may engage in a disciplined amount of short selling. A short sale is where an underlying fund borrows securities from a lender and then sells the borrowed securities in the open market. At a later date, the same number of securities are repurchased by the underlying fund and returned to the lender. In the interim, the proceeds from the first sale are deposited with the lender and the underlying fund pays compensation to the lender. If the value of the securities declines between the time that the underlying fund borrows the securities and the time it repurchases and returns the securities, the underlying fund makes a profit for the difference, less any compensation the underlying fund pays to the lender.

Short selling involves certain risks. There is a risk that:

- the securities don't decline enough in value during the period of the short sale to offset the compensation paid by the underlying fund
- the securities sold short may increase in value
- the underlying fund may experience difficulties repurchasing and returning the borrowed securities if a liquid market for the securities does not exist
- the lender may go bankrupt and the underlying fund may lose the collateral it has deposited with the lender

To reduce these risks, the underlying fund adheres to controls and limits. They sell securities of larger issuers for which a liquid market is expected to be maintained. The underlying fund also deposits collateral with lenders that meet certain criteria for creditworthiness and only up to certain limits.

Small capitalization risk

Capitalization is a measure of a company's value. It is the current price of a company's stock, multiplied by the number of shares issued by the company. Companies with small capitalization may not have a well-developed market for their securities. As a result, these securities may be difficult to trade, making their prices more volatile than those of large companies.

Specialization risk

Some underlying funds specialize in investing in a particular kind of industry or in a particular part of the world. If the selected industry or geographic area has a decrease in value, the underlying fund may suffer because there may be fewer investments to offset the decrease.

6.4 Reinvesting earnings

Any earnings of a fund's assets remain in the fund and increase the value of the units.

6.5 Interest of management and others in material transactions

In the last two years, Sun Life and its affiliates have not entered into any contracts that reasonably could be considered material to present or future owners of segregated fund contracts. This does not include contracts entered into in the ordinary course of business.

In the last three years, the principal broker, any director, or any senior officer of Sun Life or any associate or affiliate of them has not had any material interest in any transactions or proposed transactions that would materially affect the funds.

6.6 Custodian of funds

Sun Life has appointed RBC Investor Services Trust as the custodian of the cash and securities that make up the investment portfolio of each fund. The custodian's principal place of business is:

RBC Investor Services Trust
155 Wellington Street West, 5th Floor
Toronto, Ontario
M5W 1P9

6.7 Fundamental changes

We may make fundamental changes to your contract. To do this we must tell you in writing 60 days before the effective date of the change. The following are fundamental changes:

- a change to the fundamental investment objective of a fund,
- a decrease in the frequency that units of a fund are valued,
- an increase to the insurance fee of a fund above the insurance fee limit, or
- an increase to the management fee of a fund.

If we make a fundamental change you will have the following rights:

- transfer the value of the units of the fund affected by the fundamental change to a similar fund in the guarantee series without any charges, and
- if a similar fund is not available in the guarantee series, you may redeem the units of the fund affected by the fundamental change without any charges.

A similar fund is another fund that:

- has a comparable fundamental investment objective,
- is in the same investment category, and
- has a management fee and insurance fee which are the same as or lower than the current fund.

6.8 Auditor

Ernst & Young LLP, Kitchener Ontario is the auditor of the funds.

Section 7 Compensation paid to your insurance advisor

Sun GIF Solutions contracts are sold through licensed insurance advisors. Your advisor will be compensated for the service and advice they provide to you. The compensation may vary depending on your agreement with your distributor.

7.1 Sales commission

The amount you pay will vary depending on the sales charge option you select.

We deduct FEL and O class sales charges from your premium and pay them to your distributor.

We do not deduct sales charges from your premium if you choose the advisor chargeback option. We pay sales commission to your distributor who will pay your insurance advisor. If you make a withdrawal within two years from the purchase date, your distributor and insurance advisor may have to return all or part of their sales commission.

If you have purchased F class units we do not pay sales commission to your distributor.

7.2 Servicing commission

We pay a servicing commission to your distributor except if you have F class units. The servicing commission pays for the ongoing service and advice you are entitled to receive.

Except for O class units, we pay the commission from the management fee of the fund.

When you purchase O class units you agree to pay your distributor a service fee. We collect this fee, plus applicable taxes, on your distributor's behalf by redeeming O class units monthly from your contract proportionately from each fund. The redemption of units to pay the fee does not affect your guarantees. You may negotiate the service fee with your insurance advisor, subject to a maximum amount. For details on the maximum amount see our website at sunlifeglobalinvestments.com/ff. To change the service fee we must receive written instructions agreed to by you and your insurance advisor.

If you have Private Client eligible units see section 10, Private Client pricing, for more information.

Section 8 Tax information

8.1 General information

This is a summary of general tax information as it applies to this contract. It is for owners who are individuals (other than a trust) and are residents of Canada.

Any changes in the law or administrative practices of taxation authorities may result in a different tax treatment than is outlined in the tax summary. The information is not legal, tax, or estate planning advice.

This summary does not include all possible tax considerations. Consult your personal tax advisor about your individual circumstances.

8.2 The funds

Each fund is treated as a trust under the Income Tax Act.

Each fund must allocate all income and losses among contract owners who held units of the fund during the calendar year. The allocation may include Canadian dividends and interest, realized capital gains and losses and foreign source income. The fund does not pay tax on income.

If we change an underlying fund it may result in a capital gain or loss for the fund. Any gains or losses are allocated to contract owners.

8.3 Registered contracts

8.3.1 RRSPs, spousal RRSPs, LIRAs, LRSPs, RLSPs

An RRSP is registered under the Income Tax Act. Premium payments made to your RRSP or spousal RRSP may be tax deductible up to the limits permitted under the Income Tax Act. LIRAs, LRSPs, or RLSPs can only be opened with a premium payment that has been transferred according to pension law.

Investment income allocated by the funds is not taxable and we won't issue you a tax slip.

Transferring money to another registered contract is not taxable and we won't issue you a tax slip.

Withdrawals you make from your RRSP are taxable and we are required to withhold tax. We will issue you a tax slip and you will need to report this on your income tax return.

If you withdraw money from a spousal RRSP, your spouse may have to pay tax on the amount withdrawn. This may happen if an amount was paid to any spousal RRSP in the calendar year of the withdrawal or either of the previous two calendar years.

You cannot make cash withdrawals from LIRAs, LRSPs, or RLSPs unless an exception is permitted by pension law.

8.3.2 RRIFs, spousal RRIFs, LIFs, LRIFs, RLIFs, PRIFs

A RRIF is registered under the Income Tax Act. A RRIF can only be opened with money transferred from another registered contract. LIFs, LRIFs, RLIFs, and PRIFs can be opened with money transferred according to pension law. Transfers into these contracts are not taxable or tax deductible.

Investment income allocated by the funds is not taxable and we won't issue you a tax slip.

All amounts withdrawn from the contract are reported as income and are taxable. We will issue you a tax slip for these withdrawals. We will deduct withholding tax for any amount withdrawn that is more than the minimum annual payment.

8.3.3 TFSAs

A TFSA is registered under the Income Tax Act. Premium payments made to a TFSA are not tax deductible.

You do not have to report investment income allocated to you by the funds on your income tax return and we won't issue you a tax slip.

Withdrawals are not taxable and no withholding tax is deducted. Any amounts you withdraw in the current calendar year will be added to your TFSA contribution room at the beginning of the following calendar year.

8.4 Non-registered contracts

You may have to pay taxes when:

- income is allocated to you by a fund, and
- capital gains are realized when you redeem units.

We will send you tax slips for income and dividends allocated to you and capital gains and losses reported to you as a result of fund switches, withdrawals, trading activities of the funds, fund closures and underlying fund distributions and substitutions. You will need to report these on your income tax return.

8.5 Taxation on death

8.5.1 Registered contracts

We will pay the death benefit to your named beneficiary or, if none has been named, to your estate except as outlined below.

If your beneficiary is someone other than your spouse or financially dependent child or grandchild, the death benefit must be included as taxable income on your final income tax return.

If your beneficiary is your child or grandchild who is financially dependent on you (due to mental or physical disability), they or their legal representative may choose to transfer the death benefit to your beneficiary's own registered contract subject to applicable legislation.

If your beneficiary is a minor child or grandchild who is financially dependent on you, their legal representative may choose to transfer the death benefit to a term certain annuity for the child, payable until age 18. No tax is payable by your estate on the amount transferred to the annuity. The minor child or grandchild is taxed on the annuity income they receive each year.

For contracts that contain locked-in pension money we may be required to pay the death benefit to your surviving spouse, even if you have named a different beneficiary.

RRSP

If you have named your spouse as the beneficiary they can choose to transfer the death benefit into their own registered contract. If the death benefit is paid in cash it will be taxable to you on your final income tax return.

RRIF

If you have named your spouse as successor annuitant and if your spouse is alive and still your spouse when you die, they will automatically become the owner and annuitant. The contract will continue and no death benefit is payable. If they are not the successor annuitant but are named sole beneficiary they may choose to:

- transfer to their own registered contract, or
- take cash, which will be taxable to you on your final income tax return.

TFSA

If you have named your spouse as successor planholder and if your spouse is alive and still your spouse when you die, they will automatically become the planholder and annuitant. The contract will continue and no death benefit is payable. If they are not the successor planholder but are named sole beneficiary they may choose to:

- transfer to their own TFSA contract, or
- take cash.

On the death of the last planholder the contract will no longer be a TFSA. There may be tax payable when the death benefit is paid to the beneficiary. Talk to your tax advisor for more information.

8.5.2 Non-registered contracts

On the death of either the owner or annuitant, the tax implications will depend on a number of factors, including how the contract is owned, who the named beneficiary is, and whether there is a successor owner or successor annuitant. Talk to your insurance advisor or your tax advisor for more information.

Section 9 Estate planning

9.1 General information

This contract may provide you with estate planning advantages that vary depending on the guarantee series you purchase.

This summary provides general information. Consult your insurance advisor about your individual circumstances.

9.2 Beneficiaries

On the death of the last surviving annuitant, we pay the death benefit to the person or persons entitled to receive it.

If you have named more than one beneficiary, you may tell us in writing how the death benefit is to be divided. If you have not indicated how the death benefit, or a share of the death benefit, is to be divided, we will divide it according to applicable law.

We are not responsible for confirming the accuracy or validity of any beneficiary designation that you provide to us.

If you have used the contract as security for a loan (where allowed), the death benefit may be paid to the lender or, under the Quebec Civil Code, a hypothecary creditor.

If your contract was funded with locked-in pension money we may be required by pension law to pay the death benefit to your spouse instead of your named beneficiary.

9.2.1 Irrevocable beneficiaries

If you have designated the beneficiary as irrevocable, you cannot change the designation without the beneficiary's written consent, unless otherwise permitted by law.

You may need the irrevocable beneficiary's written consent for certain transactions such as withdrawals, assignments (including hypothecs in Quebec), or transfer of ownership.

An irrevocable beneficiary who is a minor cannot provide consent. A parent, guardian or tutor cannot provide consent on behalf of a minor who has been named as irrevocable beneficiary.

You may be able to apply to the court for an order permitting you to deal with the contract without the consent of the irrevocable beneficiary.

9.3 Non-registered contracts

You can name a successor annuitant on non-registered contracts. When the annuitant dies the successor annuitant will automatically become the annuitant.

On your death if there is a surviving annuitant, your non-registered contract continues. If the contract continues, no death benefit is payable.

If there is no successor annuitant named when the annuitant dies, the contract will end and the death benefit will be paid to the person or persons entitled to receive it.

9.3.1 Successor owner

You may appoint a successor owner or owners for non-registered contracts only. In Quebec, a successor owner is called subrogated policyholder(s). If you die and the contract continues, ownership of the contract passes to your successor owner. This change in ownership occurs without the contract passing through your estate.

If the successor owner is someone other than your spouse, the transfer of ownership is a taxable disposition and all realized and unrealized gains must be reported on your final income tax return.

If you are the last surviving annuitant, the contract will end and the death benefit will be paid to the person entitled to receive it.

9.4 Registered contracts

You cannot appoint a successor owner or successor annuitant for an RRSP, LIRA, LRSP, RLSP, LIF, LRIF, RLIF or PRIF contract.

You can name your spouse as successor annuitant for a RRIF contract. When you die, if your spouse is alive and still your spouse, they will automatically become the owner and annuitant. The contract will continue and no death benefit is payable.

You can name your spouse as successor planholder for a TFSA contract. When you die, if your spouse is alive and still your spouse they will automatically become the planholder and annuitant. The contract will continue and no death benefit is payable.

Section 10 Private Client pricing

We may offer Private Client pricing. If available, this will provide you with a cost effective investment solution.

Private Client pricing is subject to our administrative rules. We may discontinue or change all or part of the pricing, including any class of units offered.

Contact your insurance advisor for more information. For information on which segregated funds are available in Private Client pricing, see our website at sunlifeglobalinvestments.com/investmentoptions or talk to your insurance advisor.

10.1 Private Client pricing eligibility

To receive Private Client pricing your contract must meet a minimum market value in Private Client eligible units.

Minimum amounts, segregated funds, sales charge options and fund classes that are eligible are subject to our administrative rules and can change. For a current list of what is eligible, see our website at sunlifeglobalinvestments.com/investmentoptions or talk to your insurance advisor.

We may change the minimum market value for Private Client pricing at any time. We may make an exception to this minimum based on the holdings in one or more eligible products according to our administrative rules.

If at any time the market value of your Private Client eligible units falls below the minimum, we may terminate your participation without notice.

10.2 Private Client management fees

When the market value of units in eligible segregated funds is equal to or more than the minimum for Private Client pricing, you will receive a reduced management fee for those units. We calculate management fee reductions daily and apply them to the contract at the end of the month.

For information on the management fee reductions see our website at sunlifeglobalinvestments.com/privateclientpricing.

Private Client units will automatically receive the management fee reduction as long as the market value of all eligible units remains at or above the minimum required. These units will not receive the management fee reduction while the market value is below the minimum.

For all eligible units, except O class units, we apply the management fee reduction monthly by allocating additional units to your contract. The additional units do not affect your guarantees.

For O class units we collect the management fee, net of the management fee reduction, plus applicable taxes, monthly directly from your O class units in each guarantee series proportionately from each fund. The redemption of units to pay the management fee does not affect your guarantees. For the management fees, see our website at sunlifeglobalinvestments.com/investmentoptions or talk to your insurance advisor.

If we terminate your participation in Private Client pricing, we may switch your O class units to the equivalent value of FEL units of the same fund within the same guarantee series without any sales charges.

Sun Guaranteed Investment Fund Solutions contract

Important information

These provisions apply to your Sun GIF Solutions contract which includes the provisions for the Investment Series. Additional provisions apply if you choose to allocate money to a guarantee series other than Investment Series and you will receive a supplement with these provisions. The supplement does not create a new contract. It amends your existing contract to include the additional guarantee series provisions.

If any addendum or amendment is required, we provide it to you and it will form part of your contract.

The contract takes effect on the valuation day of the first premium payment and when Sun Life receives and accepts the initial contract opening requirements. Your receipt of this document does not constitute our acceptance. We will send you confirmation of your purchase.

Any amount that is allocated to a segregated fund is invested at the risk of the contract owner and may increase or decrease in value.

Certificate

In this contract “you”, “your” and “owner” mean the owner of the contract. “Sun Life”, “we”, “us”, and “our” mean Sun Life Assurance Company of Canada. Sun Life’s head office is located at 227 King Street South, Waterloo, Ontario N2J 4C5.

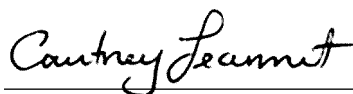

This contract is available as a non-registered contract. If you are applying for a registered contract, you request that we apply for registration of the contract under the Income Tax Act and any applicable pension law if the contract is funded by locked-in money.

Sun Life is the issuer of this individual variable annuity contract and the guarantor of any guarantee provisions in this contract.

Oricia Smith

President, SLGI Asset Management Inc. &
Senior Vice President, Investment Solutions
Sun Life Assurance Company of Canada

Courtney Learmont

Vice President & Chief Financial Officer,
Investment Solutions & SLGI Asset Management Inc.
Sun Life Assurance Company of Canada

Section 1 The contract

The contract includes the application, these contract provisions, the contract provisions of the supplements, and pension addendum if applicable. It also includes any subsequent amendments we have agreed to in writing.

If you ask us to register your contract, the applicable RRSP, RRIF or TFSA endorsement, and any pension addendum form part of your contract. If you choose to add other guarantee series, the contract provisions of the supplements for the guarantee series form part of your contract. The contract provisions of the supplements will override any conflicting provisions in this document. The Sun GIF Solutions contract includes the Investment Series.

The information in the fund facts is accurate and complies with the Individual Variable Insurance Contract Guidelines Relating to Segregated Funds of the Canadian Life and Health Insurance Association (CLHIA) and the Autorité des marchés financiers (AMF) as of the date prepared. The following information contained in the fund facts forms part of the contract:

- name of the contract and fund name,
- management expense ratios (MER),
- risk disclosure,
- fees and expenses, and
- right of rescission.

If there is an error in the fund facts information, we will use reasonable measures to correct the error. You will not be entitled to specific performance under the contract.

We may limit the number of Sun GIF Solutions contracts you own and can refuse to accept subsequent applications for the same registration type.

Every action or proceeding against us for the recovery of insurance money payable under the contract is absolutely barred unless commenced within the time set out in the Insurance Act or other applicable legislation.

Our rights under this contract will not be affected by our having waived them previously.

Section 2 General overview

2.1 Currency

Any payments by you or by us will be made in Canadian dollars.

2.2 Ownership

You may exercise rights as the owner of this contract, subject to any legal limitations. Your rights may be restricted if a beneficiary has been appointed irrevocably, or if this contract has been assigned as collateral security or hypothecated.

2.3 Annuitant

The annuitant is the person on whose life the contract and guarantees are based. The annuitant can be you or an individual you designate subject to the Income Tax Act and our administrative requirements. When the annuitant dies, unless a successor annuitant (successor planholder for TFSA) has been named, the contract will end and the death benefit will be paid to the person or persons entitled to receive it.

2.4 Beneficiary

You may designate a beneficiary or beneficiaries to receive the death benefit when the last surviving annuitant dies. You may change the beneficiary designation unless the beneficiary has been named irrevocably.

If the beneficiary is irrevocable, you cannot change or remove the designation without the irrevocable beneficiary's written consent. Certain transactions such as withdrawals, assignments (including hypothecs in Quebec), or transfer of ownership may require the irrevocable beneficiary's written consent. An irrevocable beneficiary who is a minor cannot provide consent.

Any beneficiary change must be in writing and takes effect on the date you sign the change. We will not be bound by any designation or change in designation which we have not received at our head office by the date we make payment or take any action.

We are not responsible for the validity or effect of any designation or change in designation. If there is no surviving beneficiary for all or part of the death benefit at the time of the last surviving annuitant's death which results in a death benefit being payable, that amount will be paid to the owner, or if the owner was the annuitant, to the owner's estate.

If your contract was funded with locked-in pension money we may be required by pension law to pay the death benefit to your spouse instead of your named beneficiary.

If you have used the contract as security for a loan (where allowed), the death benefit may be paid to the lender or, under the Quebec Civil Code, a hypothecary creditor.

2.5 Successor owner

If you are not the annuitant, or if you are the annuitant and a successor annuitant has been named, you may appoint one or more successor owners for non-registered contracts. The successor owner may exercise rights as the owner of this contract after your death. Their rights may be restricted if an irrevocable beneficiary has been named or if the contract has been assigned as collateral security or hypothecated. In Quebec, successor owner means subrogated policyholder. The owner can remove a successor owner at any time before the owner dies.

2.6 Successor annuitant

You must appoint the successor annuitant before the death of the annuitant. You can remove a successor annuitant at any time before the annuitant dies, subject to legal restrictions. If no successor annuitant (successor planholder for TFSA) is named, the contract will end when the annuitant dies and the death benefit will be paid to the person or persons entitled to receive it.

Non-registered contracts

You may appoint a successor annuitant for non-registered contracts. When the annuitant dies, the successor annuitant, if alive, automatically becomes the annuitant. The contract will continue and no death benefit is payable.

RRIF

You can name your spouse as successor annuitant on a RRIF contract. When you die, if your spouse is alive and still your spouse they automatically become the owner and annuitant. The contract will continue and no death benefit is payable.

TFSA

You can name your spouse as successor planholder on a TFSA contract. When you die, if your spouse is alive and still your spouse they automatically become the planholder and annuitant. The contract will continue and no death benefit is payable.

2.7 Protection against creditors

This contract may be exempt from seizure by your creditors. Consult with your legal advisor for more information.

2.8 Transaction instructions

Throughout the contract, we ask you to send us instructions in writing for certain transactions. We may allow you to provide non-written instructions according to our administrative rules.

You will be bound by any instructions you give us.

2.9 Administrative rules

When we say “administrative rules” we mean the administrative rules in place at the time of a transaction. We may change our administrative rules, without notice to you, for various reasons including:

- to improve service,
- to reflect corporate policy, or
- for economic or legislative changes including revisions to the Income Tax Act.

Section 3 Deposits

3.1 Deposits

A deposit is the premium amount you pay or the amount you transition from another guarantee series minus any sales charges or other government taxes.

Deposits are subject to the terms of the contract, other guarantee series supplements, and our administrative rules. The maximum age restrictions for deposits are described in section 2.1, Deposits, in the information folder. The valuation day for the deposit is the day we receive your instructions. See section 9, Values, for more information.

You may allocate your deposit to purchase units of one or more of the funds we have available for each guarantee series. You must tell us in writing the guarantee series, fund(s), and the sales charge option you select. If you select more than one fund, you must also tell us in writing the amount that is to be allocated to each fund.

The number of units purchased in any fund is equal to your premium, less any sales charges or fees, allocated to that fund divided by the value of a unit in that fund on the valuation day.

The value of a segregated fund unit is not guaranteed, but fluctuates with the investment performance of the assets of the segregated fund. See section 9, Values, for more information.

We may refuse or refund any deposit. We establish maximum and minimum premium and deposit amounts. We have the right to refund any deposit. If the total of all of your premiums are more than \$1 million, we may require you to get our written consent before we will accept it, based on our current administrative rules.

We may request medical evidence about the annuitant and may refuse to accept deposits based on incomplete or unsatisfactory medical evidence.

We may request proof of age, sex, survival or marital status of any person whose information is used to determine benefits. If this information has been misstated, we may recalculate the benefits to equal those that would have been provided for the person's correct age, sex, survival or marital status. We may recover any payments made based on incorrect information.

You may have rescission rights under this contract. See section 11, Rescission, for more information.

3.2 Fund availability

At any time we may decide that any of our funds will no longer be available for new deposits, or we may close a fund.

If we close a fund we will give you advance written notice of our intent. Our written notice will tell you the fund(s) that is no longer available, the fund in which we propose to purchase units, and the date an automatic fund switch will occur. We will send notice to the last address you provided to us. You have the option to select an alternative fund before the date of the automatic switch.

If we close a fund and a similar fund is not available, you may request in writing to withdraw units of the fund without incurring charges, or make a fund switch to a different fund. If we do not receive your request before the date of the automatic fund switch, we will redeem the units in the fund that will no longer be available and use the value of these units to purchase units in the proposed fund.

We may add, close, or split funds, and change a fund manager of any of the funds, subject to notification requirements. We may also merge funds.

We may also add requirements to ensure that a minimum proportion of your holdings in a guarantee series is held in fixed income investments. We may:

- transition your units from one guarantee series to units of a different guarantee series of the same fund, or
- switch your units from one fund in your guarantee series to another fund in the same guarantee series.

We will give you advance written notice before we proceed.

If we make a fundamental change, you will be given the opportunity to switch or withdraw the units of the fund(s) without incurring charges if no similar fund is available. See section 10, Fundamental changes, for more information.

3.3 Guarantee series availability

We determine which guarantee series are available to you. At any time we may decide that any of our guarantee series will no longer be available for new deposits.

The guarantee series determines the benefits under your contract. Each guarantee series has one or more funds associated with it. For Investment Series the benefits are described in this contract. For any other guarantee series the benefits are determined at the date of the initial deposit into that guarantee series and are set out in the supplement for that guarantee series. The benefits described in that supplement will apply to all subsequent deposits until the guarantee series is terminated.

For each guarantee series there are sales charge options that may be available: front-end load, F class, advisor chargeback, and O class. See section 3.4, Sales charges for more information.

If you are purchasing Private Client eligible units please see section 13, Private Client pricing, for more information.

3.4 Sales charge options

Front-end load sales charge (FEL)

Under this sales charge option you pay an FEL charge when you make a premium payment. We pay this sales charge to your distributor. You can negotiate the amount you pay with your distributor.

The sales charge will be a percentage of your premium. The charge will never be more than 5% and never less than 0%. We deduct the sales charge from your premium and use the net amount to allocate units to your contract.

F class

If you have a fee-based account or wrap account with your distributor you may be able to select this sales charge option. You pay F class sales charges directly to your distributor and not from your contract.

You may change from a nominee account to a contract held in client name with us. The units will move from the F class sales charge option to the FEL sales charge option without a sales charge. Your guarantees will not be affected and the change will not result in a taxable disposition if the fund(s) and the guarantee series remain the same.

If we are notified that you no longer have a fee-based or wrap account, we will move the units in the F class sales charge option to the FEL sales charge option according to our administrative rules.

Advisor chargeback

Under the advisor chargeback option, you do not pay a sales charge when you make a premium payment. You do not pay a redemption fee when you make a withdrawal.

When you make a premium payment, we pay a sales commission to your distributor who will pay your insurance advisor. If you make a withdrawal within two years from the purchase date, your distributor and insurance advisor may have to return all or part of their sales commission.

O class

When you purchase O class units we pay the FEL sales charge to your distributor. You can negotiate the amount you pay with your distributor.

When you purchase O class units you agree to pay your distributor a service fee. We collect this fee plus applicable taxes on your distributor's behalf by redeeming O class units from your contract monthly proportionately from each fund. The redemption of units to pay the fee does not affect your guarantees.

You may negotiate the service fee with your insurance advisor, subject to a maximum amount. For details on the maximum amount see our website at sunlifeglobalinvestments.com/ff.

To change the service fee we must receive written instructions agreed to by you and your insurance advisor.

3.5 Dollar cost average (DCA) fund

The DCA fund allows you to move your premium from the DCA fund into other funds within a guarantee series on a regularly scheduled basis.

You must establish regular fund switches out of the DCA fund over a specified period. If fund allocation instructions are not received within 90 days of the deposit date, we may move the money to the Sun Daily Interest Fund or a substantially similar fund. You cannot switch money into the DCA fund. All deposits to the DCA fund will be administered based on our administrative rules.

Section 4 Fund switches

You may ask us in writing to redeem some or all of the units of one fund to purchase units in one or more of our other available funds in the same guarantee series, subject to our administrative rules. The number of switches allowed per year, without charge, is based on our administrative rules.

Fund switches in non-registered contracts are taxable dispositions. This may result in a capital gain or loss.

The value of the units that are redeemed as a result of a fund switch fluctuate with the market value of the underlying assets and is not guaranteed.

Moving between different sales charge options will be treated as a withdrawal from one fund and a deposit to another, even if the fund is not changing. It may take place on multiple valuation days and will affect your guarantees.

Moving money from one guarantee series to another guarantee series is not a fund switch. This is called a transition. See section 5, Transitions, for more information.

Section 5 Transitions

You may request to move money from one guarantee series to other guarantee series. This is called a transition. Transitions, if available, are subject to our administrative rules and will affect your guarantees.

A sales charge may apply to the units purchased. This will reduce the amount of the deposit to the new guarantee series.

A transition into a different guarantee series other than Investment Series may require an additional application if you do not hold any units of the guarantee series at the time of the transition.

If you change the fund when you transition in non-registered contracts, it may result in capital gains or losses.

Investment Series

The maturity and death benefit guarantees will be proportionately reduced by any transitions out of the Investment Series. Transitions into the Investment Series will increase the maturity and death benefit guarantees by 75% of the amount of the deposit.

Section 6 Withdrawals

6.1 Withdrawals

You may ask for a withdrawal by requesting in writing that we redeem some or all of your units. We will process your request according to our administrative rules.

The valuation day for a withdrawal is described in section 9, Values.

The number of units redeemed from a fund will be equal to the amount withdrawn from that fund divided by the value of a unit in that fund on the applicable valuation day.

A withdrawal from a non-registered contract may result in a capital gain or loss. Withdrawals from registered contracts, except TFSA, are taxable.

If the value of the fund(s) on the date of any withdrawal is not sufficient to make the requested withdrawal, we will make the withdrawal according to our administrative rules.

Investment Series

The maturity and death benefit guarantees will be proportionately reduced by any withdrawals you make.

6.2 Scheduled withdrawals

The scheduled withdrawal frequencies available are monthly, quarterly, semi-annually and annually. The scheduled payment options are:

- Level net amount: you select the frequency of the withdrawals and the amount you want to receive. In addition to this amount we will withdraw any fees and withholding taxes.
- Level gross amount: you select the frequency and amount of the withdrawal before any fees and withholding taxes are deducted.
- Minimum annual payment: for RRIF, LIF, LRIF, RLIF, and PRIF only. The minimum annual payment is calculated according to the Income Tax Act. Each withdrawal must be for the same amount. The total for the calendar year will equal the minimum annual payment.
- Maximum annual payment: for LIF, LRIF, and RLIF only. The maximum annual payment is calculated according to pension law. Each withdrawal must be for the same amount. The total for the calendar year will equal the maximum annual payment.

The scheduled withdrawal option, withdrawal allocation instructions and frequency you select will remain in effect until you tell us in writing to change them. Any changes will affect future payments only. We may apply restrictions and charges to any scheduled withdrawals you request based on our administrative rules. We may change the frequency and withdrawal options at any time.

We will deposit your scheduled withdrawal to the bank account we have on record for you. If the date specified is on a non-valuation day, the deposit will take place on the valuation day before your scheduled withdrawal.

6.3 Required withdrawals

RRIFs, LIFs, LRIFs, RLIFs, and PRIFs require a minimum annual payment be withdrawn each year. We calculate the minimum annual payment amount based on the total value of your contract on January 1st of each year. If the total amount withdrawn is less than the required minimum annual payment, we will pay you the balance before the end of the year.

The payment will be withdrawn using the payment allocation instructions we have on file for you. If none have been provided, we will pay it according to our administrative rules.

If you have LIFs, LRIFs, and RLIFs there is a maximum annual payment amount that is set out by pension law. You cannot withdraw more than this amount unless an exception is permitted by pension law.

Tax withholding options

Depending on the payment amount you select, there may be tax implications. Under the Income Tax Act we are required to withhold tax from payments that are more than the minimum annual payment amount. You can also request to have additional withholding tax deducted from your payment. You must request this in writing.

Section 7 Fees and charges

7.1 Sales charges

The amount of sales charges is determined by the premium or transition amount and the sales charge option under which you originally purchased units.

Moving money between different sales charge options is not permitted, unless we allow it under our administrative rules. Guarantee top-up deposits we make to your contract are not subject to sales charges. See section 8, Terms of the guarantees, for more information.

We may offer additional sales charge options for contracts that meet our administrative rules. If a contract holds units with these sales charge options and they no longer meet our requirements, the units will be transferred to another sales charge option based on our administrative rules.

7.2 Fund fees

Insurance fees

You pay an insurance fee to us for providing the maturity guarantee and the death benefit guarantee for each guarantee series. We calculate and charge this fee to each fund. If you have a guarantee series that offers different guaranteed benefits, additional insurance fees may apply.

The insurance fee is an annual percentage of the value of all units held in each fund in the guarantee series. The annual percentage is available on our website at sunlifeglobalinvestments.com/investmentoptions or talk to your insurance advisor. We calculate and charge this fee daily to each fund. We may increase this fee, without notice, up to the insurance fee limit. The insurance fee limit is the insurance fee plus the greater of:

- 0.50%, or
- 50% of the insurance fee.

We will give you 60 days advance written notice if we increase the insurance fee above the stated limit on any fund. See section 10, Fundamental changes, for more information.

For more information on the current insurance fees for each fund, see our website at sunlifeglobalinvestments.com/investmentoptions or talk to your insurance advisor.

Management fees

You pay a management fee to us for managing the fund(s). We calculate and charge this fee daily to each fund. Each fund will have a different management fee. Management fees may also vary depending on the sales charge option and the guarantee series. It is an annual percentage based on the value of all units held in each fund in the guarantee series. For more information on the management fees, see our website at sunlifeglobalinvestments.com/investmentoptions or talk to your insurance advisor.

The management fees of a fund include all management fees charged by us and any underlying fund. There is no duplication in the management fees and sales charges of the funds and underlying funds.

If we increase the management fee on any fund we will give you advance written notice. See section 10, Fundamental changes, for more information.

Under current law, taxes may apply to management fees.

Management Expense Ratio (MER)

The MER is a measure of the cost to run a fund. The MER is calculated based on the insurance fees, the management fee, and a fund's operating expenses.

The MER includes the MER of any underlying fund and any fees or sales charges associated with that underlying fund. There is no duplication in the fees and sales charges of the funds and underlying funds.

The operating expenses of a fund may include operating and administrative costs, legal fees and audit fees. The MER of a fund may be changed without notice unless the increase is due to an increase in the management fee as referred to above or the insurance fee is increased above the limit.

The MER includes applicable taxes.

7.3 Administrative fees

We may charge the following administrative fees:

- Early withdrawal fee – charged if you redeem units within 30 business days of the date you acquire them. The fee is 2% of the value of the units redeemed.
- Small policy fees – charged if the minimum amount to establish a guarantee series has not been met at the end of a calendar year following the calendar year of the initial deposit or if you have redeemed units which reduce the market value below the minimum. The fee will be up to \$150 per guarantee series.

These fees do not apply to scheduled withdrawals or to regularly scheduled fund switches.

We may recover from you, by redeeming units of the fund(s), any expenses or trading losses we incur due to your errors. For example, this may include cheques returned for insufficient funds, or incorrect or incomplete instructions. Any charges we recover will be equal to any expenses or losses we incurred.

Section 8 Terms of the guarantees

We guarantee that at specific dates you or your beneficiary will be entitled to receive an amount calculated according to the terms of this contract. Supplements for guarantee series other than Investment Series may provide enhanced or additional guarantees. The guarantees are calculated and reported separately for each guarantee series.

8.1 Contract maturity guarantees

On the contract maturity date there is a maturity guarantee benefit.

We calculate the maturity guarantee separately for each guarantee series held within your contract. For guarantee series other than Investment Series see the supplements for each guarantee series for more information.

Any withdrawals you make will proportionately reduce the maturity guarantee.

For non-registered, TFSA, RRIF, LIF, LRIF, RLIF, and PRIF contracts, the contract maturity date will be December 31st of the year the annuitant turns 105.

RRSP, LIRA, LRSP, and RLSP contracts cannot be held after December 31st of the year the annuitant turns 71 (or the maximum age permitted by the Income Tax Act). On that date, unless you tell us otherwise in writing, we will amend the contract to continue as a RRIF, LIF, LRIF, RLIF, or PRIF, subject to applicable pension law.

At the contract maturity date, annuity payments will begin unless you tell us otherwise in writing. You may also ask to begin annuity payments at an earlier date. The amount we use to calculate the payout annuity will be the total of all the guarantee series maturity benefits. There may be additional options for each guarantee series, please see the supplements for more information.

8.1.1 Investment Series maturity guarantee

The maturity guarantee for the Investment Series is 75% of all premiums or transitions applied to the Investment Series less a proportionate reduction for any withdrawals or transitions to other guarantee series.

On the contract maturity date, the maturity benefit is the greater of:

- the maturity guarantee, or
- the total market value of the Investment Series.

If the total market value of the Investment Series is less than the maturity guarantee on the contract maturity date, we will immediately add units to increase the value to equal the maturity guarantee. We call this a guarantee top-up.

8.2 Contract death benefit guarantee

If the last surviving annuitant dies on or before the contract maturity date, we pay the death benefit to the person entitled to receive it.

The amount of the death benefit will be the total of all the guarantee series death benefits. Please read the supplement for each guarantee series other than Investment Series, for more information.

8.2.1 Investment Series death benefit guarantee

The death benefit guarantee for the Investment Series is 75% of all premiums or transitions applied to the Investment Series less a proportionate reduction for any withdrawals or transitions to other guarantee series.

On the death benefit date, the death benefit is the greater of:

- the death benefit guarantee, or
- the total market value of the Investment Series on the death benefit date.

If the total market value of the Investment Series is less than the death benefit guarantee on the death benefit date, we will immediately add units to increase the value to equal the death benefit guarantee. We call this a guarantee top-up.

On the death benefit date, we will redeem all units of the existing funds and transfer the corresponding value to be held in a money market fund within the Investment Series until the death benefit is paid.

8.3 Proportionate reduction calculation

Maturity and death benefit guarantees will proportionately decrease when any withdrawal or transition is made out of the guarantee series.

The formula for proportionate reduction is:

- Proportionate reduction = $G \times W/MV$
 - G = maturity or death benefit guarantee amount immediately before withdrawals or transitions
 - W = market value of the units redeemed or transitioned
 - MV = total market value of the units for that guarantee series on the valuation day immediately before the withdrawal or transition

8.4 Contract continuation at the annuitant's death

If the contract continues because there is a successor annuitant (successor planholder for TFSA), no death benefit is payable and no guarantee top-up will apply.

Certain provisions of the contract are based on the age of the annuitant. If the annuitant changes, the age of the successor annuitant will be used for these provisions.

Successor owner

You may appoint a successor owner or owners for non-registered contracts only. In the province of Quebec, a successor owner is called a subrogated policyholder. If you die and the contract continues, ownership of the contract passes to your successor owner. If you are the last surviving annuitant the contract will end and the death benefit will be paid to the person entitled to receive it. You can name, change or remove a successor owner at any time before the owner dies.

Successor annuitant

You may appoint a successor annuitant for non-registered and RRIF contracts. The successor annuitant on a RRIF contract must be your spouse. When the annuitant dies, the successor annuitant will automatically become the annuitant of the contract. The appointment of successor annuitant must be made before the death of the annuitant. You can name, change or remove a successor annuitant at any time before the annuitant dies.

Successor planholder

You may appoint your spouse as successor planholder for TFSA contracts. When you die, if your spouse is alive and still your spouse they automatically become the planholder. You can name, change or remove the successor planholder at any time, subject to legal restrictions.

Section 9 Values

9.1 Market value

The contract's market value on any valuation day is the total value of the units of all funds in the contract at the close of business on that day.

A guarantee series' market value on any valuation day is the total value of all units held in that guarantee series at the close of business on that day.

9.2 Valuation day

A valuation day is every day that the Toronto Stock Exchange is open for business and a value is available for the underlying assets of a fund.

If we receive transaction instructions before the market cut-off time, we will process the transaction based on the market value at the close of business on the valuation day. We determine the market cut-off time and we may change it.

9.3 Unusual circumstances

Under unusual circumstances, we may have to postpone the date of a transaction. This may happen if we believe it is not practical to dispose of investments held in a segregated fund or underlying fund or that it would be unfair to other policy holders. During such a delay, we will administer the transaction in a manner that we consider fair.

9.4 Unit value

We determine the unit value of a fund on a valuation day according to our administrative rules. We determine the unit value of a fund at the market cut-off time on each valuation day.

The unit value will be the total value of the underlying assets of the fund after deducting all liabilities, divided by the number of fund units.

The unit value of a fund is normally valued on every valuation day. We may postpone valuation for any period:

- during which any of the stock exchanges are closed,
- during which trading on securities exchanges has been restricted, or
- where it is not reasonable to trade securities of a fund, or determine the total value of the assets of a fund.

Even if we postpone valuation we will always value the fund's unit value at least once a month.

Section 10 Fundamental changes

We may make fundamental changes to your contract. To do this we will tell you in writing 60 days before the effective date of the change. The following are fundamental changes:

- a change to the fundamental investment objective of a fund,
- a decrease in the frequency that units of a fund are valued,
- an increase of the insurance fee of a fund above the insurance fee limit, or
- an increase of the management fee of a fund.

If we make a fundamental change you will have the following rights:

- transfer the value of the units of the fund affected by the fundamental change to a similar fund in the guarantee series without any charges, or
- if a similar fund is not available in the guarantee series, you may redeem the units of the fund affected by the fundamental change without any charges.

A similar fund is another fund that:

- has a comparable fundamental investment objective,
- is in the same investment category, and
- has a management fee and insurance fee which are the same as or lower than the current fund.

Section 11 Rescission

You can change your mind about purchasing the contract or adding more money to it. If you change your mind you must tell us in writing within two business days after the date you received confirmation of your purchase. We deem that you have received the confirmation five business days after we mailed it.

The amount we return to you will be the amount of premium you paid or the value of your investments, whichever is less. The amount returned will include a refund of any sales commissions or other fees you paid.

Section 12 Termination

12.1 Cancellation

You may cancel this contract at any time. We will redeem all units held in your contract. If you request a redemption of all units we will treat this as a request to cancel. Payments made under this section will discharge our obligations under this contract for the applicable guarantee series.

If a supplement for a guarantee series other than Investment Series provides a guarantee that continues after all units are redeemed, our obligations under that series will not end and your contract will continue. Our obligations under other guarantee series will end. See the supplements for each guarantee series for more information.

Cancellation is subject to our administrative rules and fees.

If this contract is cancelled within 30 business days after the first deposit, it may be subject to a fee of 2% of the market value in addition to any sales charges that may apply.

12.2 RRSP to RRIF conversions

In this section, when we refer to RRSP it includes locked-in retirement savings plans. When we refer to RRIF it includes locked-in retirement income plans.

If your contract is an RRSP you may convert it to a RRIF subject to applicable law and minimum balance requirements.

To exercise this right you must send us a written request and any administrative forms we require.

On the valuation day of the request the RRSP provisions of the contract will terminate and the RRIF provisions will take effect. All other terms of the contract will continue including the guarantees.

The RRIF conversion is subject to our administrative rules. The valuation day of the request will be the date that we receive your written request and any required forms. If the date is not a valuation day it will be the next valuation day.

You may only request this RRIF conversion when it is permitted under the Income Tax Act or pension law.

If your RRSP contract has not been converted by the RRSP maturity date as required by the Income Tax Act, we will automatically convert it to a RRIF.

12.3 Payout annuity

On the contract maturity date, annuity payments will begin.

The payout annuity depends on the contract registration type you hold. We will use the total of the guaranteed maturity values of each guarantee series, less any applicable fees to calculate the annuity payments.

For all contract registrations except a TFSA, the annuity payments will be calculated and paid as a life annuity guaranteed for 10 years. The annuity rate we use will be the greater of:

- the rate specified in the table below, or
- the annuity rate in effect at the time you begin annuity payments.

Age of the annuitant on the date they ask to begin annuity payments	Monthly payment per \$1,000 total contract value (less any applicable fees)
0-24	\$0.50
25-39	\$0.75
40-59	\$1.00
60-69	\$1.50
70-85	\$2.00
86 and over	\$4.00

For TFSA contracts, the annuity payments will be calculated and paid as a 10 year term certain annuity. The annuity rate we use will be the greater of:

- a monthly income of \$8.50 for each \$1,000 of total contract value (less any applicable fees), or
- the annuity rate in effect at the time you begin annuity payments.

If the annuitant dies before 120 annuity payments are made, we will pay a death benefit to the person entitled to receive the benefit. On contracts except TFSA, if the annuitant is alive after 120 annuity payments have been made, the annuity payments will continue until their death. We may recover any payments made after the annuitant dies.

If the amount of the annuity payments we calculate is less than the monthly minimum required according to our administrative rules, we may pay you the total contract value, less any fees, in one lump sum.

You may ask to begin annuity payments at an earlier date. A spousal waiver or consent may be required for locked-in contracts. The rate we use will be the annuity rate in effect at that time.

Section 13 Private Client pricing

We may offer Private Client pricing. If available, this will provide you with a cost effective investment solution.

Private Client pricing is subject to our administrative rules. We may discontinue or change all or part of the pricing, including any class of units offered.

Contact your insurance advisor for more information. For information on which segregated funds are available for Private Client pricing, see our website at sunlifeglobalinvestments.com/investmentoptions or talk to your insurance advisor.

13.1 Private Client pricing eligibility

To receive Private Client pricing your contract must meet a minimum market value in Private Client eligible units.

Minimum amounts, segregated funds, sales charge options and fund classes that are eligible are subject to our administrative rules and can change. For a current list of what is eligible, see our website at sunlifeglobalinvestments.com/investmentoptions or talk to your insurance advisor.

We may increase the minimum market value for Private Client pricing at any time. We may make an exception to this minimum based on the holdings in one or more eligible products according to our administrative rules.

If at any time the market value of your Private Client eligible units falls below the minimum, we may terminate your participation without notice.

13.2 Private Client management fees

When the market value of units in eligible segregated funds units is equal to or more than the minimum for Private Client pricing, you will receive a reduced management fee for those units. We calculate management fee reductions daily and apply them to the contract at the end of the month. For information on the management fee reductions see our website at sunlifeglobalinvestments.com/privateclientpricing.

Private Client units will automatically receive the management fee reduction as long as the market value of all eligible units remains at or above the minimum required. These units will not receive the management fee reduction while the market value is below the minimum.

For all eligible units, except O class units, we apply the management fee reduction monthly by allocating additional units to your contract. The additional units do not affect your guarantees.

For O class units we collect the management fee, net of the management fee reduction, plus applicable taxes, monthly directly from your O class units in each guarantee series proportionately from each fund. The redemption of units to pay the management fee does not affect your guarantees. For the management fees, see our website at sunlifeglobalinvestments.com/investmentoptions or talk to your insurance advisor.

If we terminate your participation in Private Client pricing, we may switch your O class units to the equivalent value of FEL units of the same fund within the same guarantee series without any sales charges.

Section 14 Endorsements

14.1 Retirement saving plan (RSP)

If you have requested that your contract be registered as an RRSP under the Income Tax Act and any applicable provincial income tax law, the following provisions apply. They form part of your contract and override anything to the contrary in the Sun GIF Solutions contract and guarantee series supplements.

1. Before the maturity date and while you are alive you may withdraw some or all of the market value of your guarantee series units. The withdrawal is subject to the terms of your contract and the Income Tax Act.
2. The contract and the annuity payments cannot be assigned either in whole or in part.
3. The plan may be amended at any time to permit a plan amendment transfer to another issuer in accordance with section 146 of the Income Tax Act.
4. Your right to select retirement income is limited to the rights set out in subsection 146(1) of the Income Tax Act.
5. If you die before the settlement of your contract, the proceeds are payable in one sum.
6. The plan does not provide for periodic payments in a year under an annuity after the death of the first annuitant, the total of which exceeds the total of the payments under the annuity in a year before that death.
7. Despite paragraph 146(2)(a) of the Income Tax Act, if we are given proof that there is tax payable, resulting from an over-contribution, under Part X.1 of the Income Tax Act or, if applicable, a similar clause of a provincial act, then we will refund to the contributor all amounts required to reduce or eliminate the amount otherwise payable. However, the refund cannot be greater than the market value of the contract. We may require return of the contract for endorsement.
8. Annuity payments to you or to your spouse will be in equal annual or more frequent periodic payments as specified in the Income Tax Act. Annuity payments may not be surrendered, commuted or assigned. However, if you die while annuity payments are being made, any remaining payments must be commuted and paid in one sum to the beneficiary, if other than your spouse. If the beneficiary is your spouse, payment of the annuity will continue under the terms of the annuity you selected and subject to the terms of the Income Tax Act.
9. Your contract must mature on or before the latest date specified in the Income Tax Act for RSPs.
10. No deposits may be made following the maturity date of the contract.

14.2 Retirement income fund (RIF)

If you have requested that your contract be registered as a RRIF under the Income Tax Act and any applicable provincial income tax law, the following provisions apply. They form part of your contract and override anything to the contrary in the Sun GIF Solutions contract and guarantee series supplements.

1. We will only accept deposits into the contract from:
 - a. a registered retirement savings plan (RRSP) under which you are the annuitant,
 - b. another registered retirement income fund (RRIF) under which you are the annuitant,
 - c. the proceeds from an RRSP or a RRIF of your spouse on their death as described in paragraph 60(l)(v) of the Income Tax Act,
 - d. the proceeds from an RRSP or a RRIF of your spouse or former spouse under a valid order or a written separation agreement, dividing property between you and your spouse or former spouse settling rights resulting from the breakdown of your marriage or common-law partnership,
 - e. a registered pension plan of which you are a member (under subsection 147.1(1) of the Income Tax Act),
 - f. a registered pension plan according to subsection 147.3(5) or (7) of the Income Tax Act, or
 - g. a specified pension plan according to subsection 146(21) of the Income Tax Act.
2. No payments will be made from the contract except as provided in this contract and under paragraph 146.3 (2) (a) of the Income Tax Act.
3. The contract or any payments cannot be assigned either in whole or in part.
4. On your death except where your spouse becomes entitled to receive retirement income payments under your contract or your will, we will pay the death benefit as provided in your contract.
5. On your request we will transfer all or part of the market value of your contract to another RRIF carrier. We will provide all the information necessary to continue the RRIF. We will pay you the balance of the minimum annual payment for the year in which the transfer is made, as required under the Income Tax Act.

14.3 Tax-free savings account (TFSA)

If you have requested that your contract be registered as a TFSA under the Income Tax Act and any applicable provincial income tax law, the following provisions apply. They form part of your contract and override anything to the contrary in the Sun GIF Solutions contract and guarantee series supplements.

1. You must be 18 years of age or older and a resident of Canada when this contract is entered into.
2. This TFSA contract is a qualifying arrangement for the purposes of subsection 146.2(1) of the Income Tax Act.
3. The contract will be maintained for the planholder's exclusive benefit, determined without regard to any right of a person to receive a payment out of or under this contract on or after the death of the planholder. This condition is subject to the provisions of section 9 of this endorsement.
4. While there is a planholder, no one other than the planholder or us has any rights under the contract relating to the amount and timing of distributions and the investing of funds.
5. Only the planholder can make contributions to this contract.
6. If we are given proof that there is tax payable under section 207.02 or 207.03 of the Income Tax Act, then we will refund to the planholder all amounts required to reduce or eliminate the amount otherwise payable. However, the refund cannot be greater than the market value of the contract.
7. On your request we will transfer all or part of the market value of your contract to another TFSA of the planholder. We will provide all the information necessary to continue the TFSA.
8. The contract complies with any regulations and conditions under the Income Tax Act for TFSAs.
9. The planholder may use the interest in the TFSA contract as security for a loan or other indebtedness if:
 - a. the terms and conditions of the indebtedness are terms and conditions that persons dealing at arm's length with each other would have entered into, and
 - b. it can reasonably be concluded that none of the main purposes for that use is to enable a person (other than the planholder) or a partnership to benefit from the exemption from tax under the Income Tax Act of any amount in respect of the TFSA.

Glossary of terms

Aggregate unit value – for a group of units, the total value of all units.

Annuitant – the person on whose life the contract and guarantees are based. If the contract is registered as an RRSP or RRIF it has the meaning defined in subsections 146(1) and 146.3(1) of the Income Tax Act.

Annuity payments – the monthly payout annuity payments we pay to the annuity recipient.

Client name – a contract held in your name and you have not named a nominee.

Contract – includes the contract provisions in this document, the application, applicable supplements, applicable pension law addendum and **only** the specific information in the fund facts as detailed in Section 1 of the contract. It also includes any subsequent amendments agreed to by Sun Life in writing. It does not include the information folder.

Contract date – the valuation day of the initial premium payment to the contract.

Contract maturity date – the last valuation day of the calendar year the annuitant turns age 105. If the contract is a LIF the contract maturity date may be an earlier date if required by pension law.

Death benefit – the guaranteed benefit we pay on the last surviving annuitant's death less any required tax or government fees.

Death benefit date – the date we receive proof, satisfactory to us, of the last surviving annuitant's death.

Deposit – the premium amount you pay us or the amount you transition to a guarantee series, less any sales charges or government fees. We also use it as a verb meaning to make a premium payment or transition.

Distributor – a firm, corporation or other entity licensed to solicit applications for insurance.

Distribution – means a payment out of or under the TFSA to satisfy all or part of the planholder's interest in the TFSA as defined by subsection 146.2(1) of the Income Tax Act.

Fund – any one of the available segregated funds established by Sun Life.

Fund facts – provides detailed information about a fund.

Fund switch – moving money between funds within a guarantee series.

Guarantee top-up – an amount we deposit to a guarantee series, if required, at contract maturity or on notification of death of the annuitant, to increase its value to equal the guaranteed value.

Income Tax Act – the Income Tax Act (Canada).

Information folder – the document(s) you receive when you buy a segregated fund contract. It provides details about the contract and your investment options.

Insurance fee – a fee charged by Sun Life to the fund for providing the guaranteed benefits.

Life annuity – provides payments for as long as the annuitant lives.

Life income fund (LIF), locked-in retirement income fund (LRIF), restricted life income fund (RLIF), and prescribed retirement income fund (PRIF) – a contract funded by locked-in pension money and registered as a RRIF for tax purposes. Pension law limits the amounts that may be withdrawn annually from this type of contract except for PRIF contracts.

Locked-in contract – a contract established with locked-in money from a pension plan. Locked-in means there are limits and restrictions set out in pension law.

Locked-in retirement account (LIRA), locked-in retirement savings plan (LRSP), restricted locked-in savings plan (RLSP) – a contract funded by locked-in pension money and registered as an RRSP for tax purposes. Pension law limits the amounts that may be withdrawn from this type of contract.

Management fee – a fee Sun Life charges to a fund for managing and administering the fund.

Nominee – the distributor or their related dealer named by the owner as a nominee owner to provide services to the owner and instructions to Sun Life on the owner's behalf.

Non-registered contract – a contract that is not registered for tax purposes under the Income Tax Act.

PAC – a pre-authorized chequing plan used to make deposits.

Planholder/owner/annuitant of a TFSA – is the holder of the TFSA contract as defined by subsection 146.2(1) in the Income Tax Act.

Premium – an amount you pay into the contract before any sales charges or other government fees are deducted.

Purchasing units – for a segregated fund, it means allocating your deposit to units of a fund. You do not own these units or any part of the underlying assets of the fund.

Qualifying arrangement – is an arrangement that is entered into after 2008 between the issuer and an individual who is at least 18 years of age as defined in subsection 146.2(1) of the Income Tax Act.

Redeem, redeemed, or redemption – means to surrender any units allocated to the guarantee series or contract. This includes withdrawals, transitions, and fund switches.

Registered contract – a contract registered for tax purposes under the Income Tax Act.

Registered retirement income fund (RRIF) – a contract registered under the Income Tax Act as a RRIF for tax purposes.

Registered retirement savings plan (RRSP) – a contract registered under the Income Tax Act as an RRSP for tax purposes.

RRSP maturity date – the latest date permitted by the Income Tax Act that an RRSP, LIRA, LRSP, or RLSP may be converted to a RRIF, LIF, LRIF, RLIF, or PRIF and keep its tax deferred status.

Segregated fund – a pool of investments held and managed by a life insurance company separately (i.e. segregated) from its other investments.

Spouse – your spouse or common-law partner as defined in the Income Tax Act.

Spousal RRSP – an RRSP contract into which your spouse deposits a premium.

Survivor – a person who is a spouse or common-law partner of the individual immediately before the individual's death as defined by subsection 146.2(1) of the Income Tax Act.

Tax-free savings account (TFSA) – a contract registered under the Income Tax Act as a TFSA for tax purposes.

Total contract value – the total value of all funds in all guarantee series held within the contract.

Transition – moving money from one guarantee series to another guarantee series within the contract.

Underlying fund – the mutual fund or other investment fund in which a fund invests.

Unit value – a notional value used to measure the market value of one unit of a fund.

Withdrawal – taking money out of the contract. The gross withdrawal amount is before any sales charges or withholding tax. The net withdrawal amount is after any sales charge or withholding tax is deducted.
