For definitions and help with this form, refer to the Instruction page for completion of International tax classification for an entity (4545-1).

- Entity means a corporation, trust, estate, partnership, association, fund, joint venture, organization, syndicate, foundation or other organization.
- Tax residency is the basis on which most countries tax individuals and entities. Generally, an Entity is subject to the tax laws of the jurisdiction of which it is a resident. An Entity can be a resident of more than one jurisdiction for tax purposes. The question of residency can be approached in different ways, depending on the laws of the country asserting the right to tax an Entity. For example, an Entity can be a resident of the country where it was created, or where it has its head office, or where it carries on business. An Entity can also be a resident for tax purposes of the country where its central management and control is located (i.e. the country where those individuals or entities who control the Entity reside for tax purposes). Every country has their own rules for determining whether an Entity is a resident of their country and subject to their tax laws. Tax treaties may also apply to determine tax residency. Those laws and the application of them can be very complicated. Therefore, we recommend that you speak with a professional tax advisor who is knowledgeable about the laws applicable to the country in question.
- Canadian Financial Institutions are required under Part XVIII (Foreign Account Tax Compliance Act FATCA) and Part XIX (Common Reporting Standard CRS) of the Income Tax Act (Canada) to collect and review the information provided on this form to determine if they have to report an Entity financial account to the Canada Revenue Agency (CRA). The CRA may share that information with the government of a foreign jurisdiction that the Entity is a resident of for tax purposes.
- We will use the information provided in this form to determine whether we must report your account to the CRA. If this form is not completed, we may be required to report the account to the CRA.
- Notify us within 30 days of any changes and provide us with a new <u>International tax classification for an entity (4545-E)</u> form. A change includes information that affects the Entity's Tax residency outside of Canada, such as a change of address, telephone number or change in respect of any Controlling Persons. We will update the information in our records when we are advised of a change.

#### Instructions

Identify the Entity type applicable to the Entity. The questions within each section are designed to assist with this process. Complete the form in order unless specific instructions are provided.

### 1 Declaration of Tax residency

For details and definitions about tax residency, refer to the <u>Instruction page for completion of International tax classification for an</u> entity (4545-I).

- If the Entity is a tax resident in any jurisdiction other than Canada and does not have a Taxpayer Identification Number (TIN) from that jurisdiction(s) when this form is completed, the Entity must apply for one within 90 days.
- Upon receipt of the TIN, notify us within 15 days.
- If the Entity fails to provide its TIN, it may be subject to a penalty under the Income Tax Act (Canada).
- If additional space is required for any section of this form, complete the applicable sections on a new <u>International tax classification</u> <u>for an entity (4545-E)</u> form.

#### 3 Controlling Persons

For details and definitions about Controlling Persons, refer to Section 3 of the *Instruction for completion of International tax* classification for a non-financial entity (4545-NFE).

- If the Controlling Person(s) are a tax resident in any jurisdiction other than Canada and do not have a Taxpayer Identification Number (TIN) from that jurisdiction(s) when this form is completed, they must apply for one within 90 days.
- When a Controlling Person receives their TIN, we must be notified within 15 days.
- If the Controlling Person(s) fail to provide a TIN, they may be subject to a penalty under the Income Tax Act (Canada).
- We must be notified within 30 days of any changes and provided with a new International tax classification for an entity (4545-E) form. A change includes information that affects the Controlling Persons' tax residency outside of Canada, such as a change in tax jurisdiction, address or telephone number. We will update the information in our records when we are advised of a change

## Appendix 1 | International tax classification examples

Below are some examples to illustrate international tax Entity classifications. These examples are hypothetical situations and are intended only for use as general reference and do not constitute legal or tax advice.

Examples	Tax Classification	FATCA Entity classification	CRS Entity classification
Whitford Carpets Inc. is a carpet manufacturer incorporated in Canada and has been in business for over a century. In the prior tax year, 60% of its gross income is revenue from the manufacture and sales of carpets. 40% of its assets produce dividend and other investment income.	<ul> <li>Whitford Carpets is a "Non-U.S. Entity" (for FATCA purposes) and a "Non-financial Entity" (for CRS purposes). It is not a "Financial Institution" (i.e. it is a non-financial foreign Entity, or NFFE under FATCA, and a non-financial Entity, or NFE, under the CRS).</li> <li>Since less than 50% of its gross income for the prior year is passive income, and less than 50% of its assets held in the prior year produced passive income, it is an active NFFE/NFE.</li> </ul>	Active NFFE	Active NFE
Nora's Dollar Store Inc. is a family- owned retailer incorporated in Canada. In the prior tax year, 35% of its gross income was revenue from its retail store operations while the remaining 65% of its gross income was investment portfolio income (interest, dividends and rental income from a shopping mall real estate holding).	<ul> <li>Nora's Dollar Store is a passive NFFE/NFE since more than 50% of its gross income in the prior year was passive income.</li> <li>Nora's Dollar Store will be asked to identify any directors or controlling persons who are U.S. persons (which includes U.S. citizens and residents) and/or non-residents of Canada. For a corporation, a controlling person is an individual who, directly or indirectly, owns or controls at least 25% of the corporation's shares. Any U.S. controlling person, or the corporation on his or her behalf, must certify as to his or her residency or as to whether he or she is a U.S. person.</li> </ul>	Passive NFFE	Passive NFE
Kyle and Melinda together own 100% of a holding company which in turn owns a dental practice in which Kyle and Melinda practice dentistry. Both the holding company and dental practice are incorporated in Canada.  The holding company is the applicant. 95% of the holding company's activities consist of holding the stock of the dental practice and 5% of its activities consist of holding unrelated investments. 100% of its gross income of the holding company in the previous tax year is dividend income.	<ul> <li>The holding company is a NFFE/NFE. It is an active NFFE/NFE since substantially all of its activities consist of holding the stock of its subsidiary (i.e. the operating company) which is in turn an active business.</li> <li>It would be the same result if instead of a dental practice, Kyle and Melinda operated a rental equipment, property development or janitorial services company through the holding company.</li> </ul>	Active NFFE	Active NFE
Buffalo Springs Energy Incorporated is an oil and gas producer incorporated in a Canadian province. It is regularly traded on the TSX.	<ul> <li>The company is an active NFFE/NFE since its stock is regularly traded on an established securities market.</li> <li>A 'related company' of Buffalo Springs Energy Incorporated would also be an active NFFE/NFE.</li> </ul>	Active NFFE	Active NFE
Louis established a family trust in Canada for the benefit of his children and grandchildren. His oldest child acts as trustee, and the trust income is distributed to the three children and four grandchildren. All of the trust's gross income for the prior year was from dividends and interest.	<ul> <li>The trust is an NFFE/NFE. Since all (i.e. more than 50%) of its gross income in the prior year was passive income, it is a passive NFFE/NFE.</li> <li>The trustee will be asked to identify the trust's controlling persons and certify whether each is a US person (which includes U.S. citizens and residents) and/or a non-resident of Canada. For a trust, a controlling person can be a trustee, beneficiary and/or settlor of the trust.</li> </ul>	Passive NFFE	Passive NFE

Robinson Family Trust is a Canadian family trust with Don and his brother James as both trustees and trust beneficiaries.	<ul> <li>The trust is an NFFE/NFE. Since all (i.e. more than 50%) of its gross income in the prior year was passive income, it is a passive NFFE/NFE.</li> <li>The trustee will be asked to identify the trust's controlling persons and certify whether each is a US person (which includes U.S. citizens and residents) and/or a non-resident of Canada. For a trust, a controlling person can be a trustee, beneficiary and/or settlor of the trust.</li> <li>It would be the same result if an estate was the applicant purchasing the policy.</li> </ul>	Passive NFFE	Passive NFE
Red Rover Inc. is a management consulting company incorporated in the U.S. The company is not listed on any securities exchange.	<ul> <li>For FATCA purposes, the company is a U.S. person since it is incorporated in the U.S. and is considered a specified U.S. person as the company's stock is not regularly traded on an established securities market or exchange.</li> <li>For CRS purposes, the company is an active NFE because more than 50% of its income comes from business.</li> </ul>	Specified U.S. person	Active NFFE
