

## Sun Life Tactical Growth ETF Portfolio

## Series A

### Key reasons to invest

- Access an all-in-one, managed portfolio that invests primarily in exchange traded funds (ETFs)
- Designed for capital growth and income (with a tilt to growth), through a strategic mix of 80% equity and 20% fixed income investments
- Professionally diversified across a broad range of asset classes, geographies and ETF managers
- Tactical adjustments allow the portfolio manager to manage risk and adapt to changing markets

### Investment growth of \$10,000

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. For periods greater than one year, the indicated rates of return are the historical annual compounded total returns as of the date indicated including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

Compound growth calculations are used only for the purpose of illustrating the effects of compound growth and are not intended to reflect the future value of any mutual fund or returns on investment in any mutual fund.

The payment of distributions is not guaranteed and may fluctuate. The payment of distributions should not be confused with a fund’s performance, rate of return, or yield. Annual distributions paid as a result of capital gains realized by a fund and income and dividends earned by a fund are taxable in your hands in the year they are paid.
